Your personal data is intended for T. Rowe Price and may be shared with T. Rowe Price affiliates and subsidiaries and, in certain circumstances, with third parties.

We may share your personal data with:

- **T. Rowe Price’s family of companies.** As the T. Rowe Price entity that you’re applying to work for is part of a wider group of companies with headquarters in the U.S. and offices located across the globe (which all partially share management, IT, human resources, legal, compliance, finance and audit responsibility) we may share your personal data among our family of companies, including our subsidiaries and affiliates, in order to process your application and conduct the other activities described in this Notice.

We may also share your personal data with the following types of third-party organisations:

- **External auditors, accountants, and legal and other professional advisors.**
- **Our Service Providers.** We use other companies or contractors (“**Service Providers**”) to perform services on our behalf or to assist us with the operation of T. Rowe Price products or business operations. For example, when you use our online portal to apply for a job, the HR information database is currently operated by the service provider. We may share personal data with the following categories of Service Providers:
 - Infrastructure and technology Service Providers;
 - Analysis, research, event and communications providers; and
 - Providers of administrative services for T. Rowe Price, such as recruiting and travel services.

In the course of providing such services, these Service Providers may have access to your personal data. They will act under our instructions, and we instruct them not to use your personal data for any other purpose. We will always use our best efforts to ensure that all the Service Providers we work with will keep your personal data secure.

- **Third parties permitted by law.** In certain circumstances, we may be required to disclose or share your personal data in order to comply with a legal or regulatory obligation (for example, we may be required to disclose personal data to the police, regulators, government agencies or to judicial or administrative authorities). Where we store your personal data

The personal data that we collect from you may be transferred to, and stored at, a destination outside the jurisdiction in which you are located.

If you are located in the European Economic Area (“**EEA**”) (or in the UK should it no longer be part of the EEA), this means the personal data may be transferred to, stored at and accessed from a destination outside the EEA (or the UK), including to T. Rowe Price Associates, Inc., in the United States. It may also be processed by staff operating outside the EEA (or the UK) and who work for us, an affiliate, or for one of our Service Providers. If you are located outside the EEA (or the UK), then in addition to the above, this means that personal data may be transferred to, and stored at, a destination in the EEA (or the UK).

For transfers to T. Rowe Price entities outside the EEA (or the UK), T. Rowe Price will be bound by the EU Standard Data Protection Clauses (pursuant to Article 46(2)(c) General Data Protection Regulation or “GDPR”), which the European Commission has assessed as providing an adequate level of protection for personal data (or other appropriate safeguards), to ensure that your data is protected adequately. (Should the UK no longer be part of the EEA, the EU Standard Data Protection Clauses will be recognized under applicable UK law as appropriate to safeguard transfers of personal data to T. Rowe Price entities outside of the UK or EEA.) You can ask for a copy of such appropriate safeguards by [contacting us](#).

Your choices/your privacy rights

You have various rights in connection with our processing of your personal data, each of which is explained below. If you wish to exercise one or more of the below rights, please [contact us](#), and include your name, email and postal address as well as your specific request and any other information we may need in order to provide or otherwise process your request.

- **Access.** You may have the right to confirm with us whether your personal data is processed and, if it is, to request access to that personal data, including the categories of personal data processed, the purpose of the processing and the recipients or categories of recipients. We do have to take into account the interests of others, though, so this is not an absolute right, and if you want to request more than one copy, we may charge a fee.
- **Rectification.** You may have the right to rectify inaccurate or incomplete personal data concerning you. In addition, where you have used an online portal to load your personal data, and where there is functionality that allows you to do so, you may access, review and update your personal data directly.
- **Deletion.** You may have the right to ask us to erase personal data concerning you, except that we are not obligated to do so if we need to retain such data in order to comply with a legal obligation or to establish, exercise or defend legal claims.
- **Restriction.** In limited circumstances, you may have the right to request that we restrict processing of your personal data. This may apply where you believe such data to be inaccurate, that our processing is unlawful or that we no longer need to process such data for a particular purpose (but where we are

not able to delete the data due to a legal or other obligation or because you do not wish for us to delete it). In such case, we would mark stored personal data with the aim of limiting particular processing for particular purposes in accordance with your request or otherwise restrict its processing.

- **Portability.** You may have the right to receive personal data concerning you, which you have provided to us, in a structured, commonly used and machine-readable format, and you may have the right to transmit that data to another entity.
- **Objection.** Under certain circumstances you may have the right to object, on grounds relating to your particular situation, at any time to the processing of your personal data, including profiling (profiling is not a standard practice, so when applicable) by us, and we can be required to no longer process your personal data. This may include requesting human intervention in relation to an automated decision (when applicable) so that you can express your view and contest the decision.
- **Make a Complaint.** You also have the right to lodge a complaint with the competent data protection supervisory authority, which in Luxembourg is the Commission Nationale pour la Protection des Données (the “CNPD”) or in the UK is the Information Commissioner's Office (the “ICO”). If you are based in, or the issue you would like to complain about relates to, any other location, please [contact us](#).

How long do we keep your personal data?

We will only retain your personal data for as long as it is necessary for the purpose for which those data were collected and to the extent permitted by applicable laws. When we no longer need to use your information, we will remove it from our systems and records and/or take steps to promptly anonymise it so that you can no longer be identified from it (unless we need to keep your information to comply with legal or regulatory obligations to which we are subject).

Security

We have implemented technical and organisational security measures in an effort to safeguard personal data in our custody and control. Such measures that we have implemented include limiting access to personal data only to employees, contractors and authorised Service Providers who need to know such information for the purposes described in this Notice; training for our employees and contractors; and other technical, administrative and physical safeguards.

While we endeavour to always protect our systems, sites, operations and information against unauthorised access, use, modification and disclosure, due to the inherent nature of the internet as an open global communications vehicle and other risk factors, we cannot guarantee that any information, during transmission or while stored on our systems, will be absolutely safe from intrusion by others, such as hackers.
