# The Lipper Indexes (Indexes) shown for the Communications & Technology Equity, Financial Services Equity, and Science and Technology Equity composites reflect the performance of U.S. mutual funds and are shown for informational purposes only. The composite is not a fund and, therefore, is not included in the Index performance calculations. There are differences between mutual funds and composites/separate accounts that may cause performance results to differ.

Net of fees performance reflects the deduction of the highest applicable management fee, as shown in the chart, that would be charged to an institutional client without the benefit of breakpoints. Net performance returns reflect the reinvestment of dividends and are net of all non-reclaimable withholding taxes on dividends, interest income, and capital gains.

For illustrative, informational purposes only. Not all strategies/structures shown are available in all jurisdictions from T. Rowe Price.

For any equity benchmarks shown, returns are shown with gross dividends reinvested, unless otherwise noted.
