Dear Shareholder,

We are writing to inform you of the following changes made to the prospectus of the Select Investment Series III SICAV (the “Company”) in the June 2020 update.

- 1) Further clarification has been added to the “General Investment Powers and Restrictions” section of the prospectus, in relation to ancillary investments.
- 2) For the following funds, clarification has been made to the ‘Investment Process’ section of each fund page that the Investment Manager’s approach is to “assess environmental, social and governance (“ESG”) factors with particular focus on those considered most likely to have a material impact on the performance of the holdings or potential holdings in the funds’ portfolio. These ESG factors, which are incorporated into the investment process alongside financials, valuation, macro-economics and other factors, are components of the investment decision. Consequently, ESG factors are not the sole driver of an investment decision but are instead one of several important inputs considered during investment analysis.”:
