

# T. Rowe Price Emerging Markets Discovery Equity Pool – Proxy Voting Summary

6 months ending June 30, 2024

### PROXY VOTING PROGRAM OVERVIEW

Proxy voting is a crucial link in the chain of stewardship responsibilities we execute on behalf of our clients. Each vote represents both the privileges and the responsibilities that come with owning a company's equity instruments.

We take our responsibility to vote our clients' shares very seriously - taking into account both high-level principles of corporate governance and company-specific circumstances. Our overarching objective is to cast votes to foster long-term, sustainable success for the company and its investors.

T. Rowe Price portfolio managers are ultimately responsible for the voting decisions within the strategies they manage. They receive recommendations and support from a range of internal and external resources:

- The T. Rowe Price Environmental, Social & Governance (ESG) Committee
- Our global industry analysts
- Our specialists in corporate governance and responsible investment
- ISS, our external proxy advisory firm

Our proxy voting program serves as one element of our overall relationship with corporate issuers. We use our voting power in a way that complements the other aspects of our relationship with these companies, including engagement, investment diligence, and investment decision-making.

#### SUMMARY OF MAJOR PROPOSAL ITEMS

The following table breaks down voting records into categories. Some categories, such as the election of directors, are universal across the markets where we invest. Other voting issues are unique to select regions. For management-sponsored proposals, a vote "FOR" is a vote aligned with the board's recommendation. For shareholder-sponsored proposals, a vote "FOR" is generally a vote contrary to the board's recommendation.

## SIGNIFICANT VOTES

The definition of a significant vote can vary across the investment industry. At T. Rowe Price, meetings may be tagged as significant where the situation is particularly contentious, or the vote illustrates a key aspect of our voting approach. Detailed below is the summary of a resolution, how we voted, and our rationale for that voting decision. T. Rowe Price portfolio managers decide how to vote on the proxy proposals of companies in their portfolios and, as a result, may not all vote the same.

This case study describes proxy voting being carried out on behalf of the fund. This material is for informational purposes only and is not intended as an offer or recommendation concerning investments, investment strategies, products, and account types.

CASE STUDY: Saudi National Bank – Agenda item number 8		
Summary of the resolution(s)	Agenda item number 8: Amend Remuneration and Annual Compensations Policy of Board Members and Its Committees	
Country	Saudi Arabia	
Company description	Saudi National Bank (SNB) is the largest bank in Saudi Arabia in terms of loans and deposits.	
Date of vote	May 1, 2024	
Meeting type	Annual	
Proponent	Management	
How we voted	Agenda item number 8: For	
Rationale for the voting decision(s)	Under proposal 8, the bank proposed to delete the maximum annual remuneration cap of Saudi Arabian riyal (SAR) 500,000 per director and replace it with a new total cap of SAR 10.8m, with the cap calculated from an allowance of SAR 900,000 per director. These proposed changes were the result of a benchmarking exercise. SNB also proposed a new cap for the chair's remuneration set at SAR 6m, which represents a 33% increase.	
	We had initial concerns, but upon engagement, sufficient rationale was provided for the uplift which took into account the Chair's responsibilities and the results of a benchmarking exercise. We therefore voted FOR the amendment of the remuneration and annual compensations policy.	

The specific security mentioned above comprised 1.4% of the fund as of June 30, 2024
