

2023 Tax Information **T. ROWE PRICE FUNDS**

The enclosed tables provide supplemental tax information on T. Rowe Price funds that can help in the preparation of your taxes and can assist you in tax planning. These tables contain the following:

- Qualified Dividend Income: the percentage of ordinary income dividends paid by T. Rowe Price funds that may qualify for taxation at the reduced capital gains rate.
- Interest on U.S. Government Securities: the percentage of ordinary income dividends paid by T. Rowe Price funds derived from interest on U.S. government securities.
- Reporting for Foreign Taxes Paid: information you will need to take a credit or a deduction for foreign taxes paid by the T. Rowe Price funds.
- Return of Capital and Reclassifications: lists nontaxable distributions—or return of capital on a fund—and indicates if any dividends paid throughout the year were reclassified for 1099 purposes.
- Qualified REIT Dividends: the percentage of ordinary income dividends paid by T. Rowe Price funds that may be eligible for a deduction of up to 20% on qualified real estate investment trust (REIT) dividends.
- Long-Term Capital Gains (Unrecaptured Section 1250 Gain): the portion of long-term capital gain distributions that is unrecaptured section 1250 gain from certain depreciable real property.
- Dividends-Received Deduction (for corporations): the percentage of ordinary income dividends paid by T. Rowe Price funds that may qualify for a deduction applicable to corporate shareholders.
- Section 163(j) Interest Dividends (for corporations): the percentage of ordinary income dividends paid by T. Rowe Price funds that were designated as Section 163(j) interest dividends.
- Tax Information for Tax-Free Funds: state and federal tax reporting requirements for your T. Rowe Price tax-free fund investments.

For help regarding your federal tax filings, we recommend that you consult a tax professional or contact the IRS.

The complexity and diversity of state requirements are such that we cannot provide guidance concerning what must be reported and on what forms. If you have questions about state tax requirements, contact your local tax office.

2023 QUALIFIED DIVIDEND INCOME

All or a portion of your ordinary income dividend from a fund may be taxed at a reduced capital gains rate rather than the higher marginal rates applicable to ordinary income. The amount of your dividend subject to this lower rate is reported in Box 1b of your Form 1099-DIV.

The table below reports the percentage of the ordinary income dividend paid by the T. Rowe Price funds that qualify for the reduced rate. It is provided here for informational purposes only and to assist you in your tax planning. In preparing your tax return, please use the amount in Box 1b of your Form 1099-DIV.

To treat a dividend as qualifying for the reduced rates, you must have held your shares on which you received the dividend for at least 61 days during the 121-day period beginning 60 days before the ex-dividend date of the distribution.

In addition, the ordinary dividend of a fund (the amount included in Box 1a of Form 1099-DIV) includes net short-term capital gains and foreign taxes paid, which may not qualify for the reduced rates. As a result, the percentage of the Box 1a amount that qualifies for the reduced rate can vary widely from year to year, depending on the amount of short-term gains distributed by the fund.

If you own a fund that has more than one distribution during the year, the amount reported in Box 1b of your Form 1099-DIV will be based on the qualifying percentage of each distribution.

Calculations based on the percentages below may yield amounts that differ from the amounts on your Form 1099-DIV due to rounding.

¹This percentage applies to the sum of your income dividend plus short-term capital gain distribution paid for the calendar year or other period, if indicated, as reported in Box 1a of your IRS Form 1099-DIV.

Percentages are the same for all fund classes (Investor, Advisor, R, and I classes). For more information on Advisor, R, Institutional, and Portfolio funds, please visit our website for financial intermediaries at troweprice.com/financial-intermediary/us/en/investments/tax-center.html.

N/A is indicated where a fund did not pay a taxable income dividend or short-term capital gain or pass through a foreign tax expense in 2023.

A dash indicates that the fund paid a dividend or short-term capital gain, but it was not qualified dividend income.

2023 INTEREST ON U.S. GOVERNMENT SECURITIES

In most states, fund dividends from interest on direct U.S. government securities are exempt from state and local taxes. To determine this amount for each of your funds, multiply the "**Percentage of Dividends From U.S. Government Securities**" (shown below in Column 1) by the amount for that fund in Box 1a of your Form 1099-DIV.

Check the specific requirements for your state. For example, some states only exempt dividends for those funds holding a minimum percentage, usually 50%, of government securities at the end of each quarter. We indicate in Column 3 below whether any of your investments meet this requirement.

State intangible property tax

If you pay state intangible property tax on the value of your fund, you may be able to exempt the percentage of the fund's investments held in U.S. government securities. To determine this amount, multiply the "**Percentage of Funds Held in U.S. Government Securities on December 31, 2023**" (shown below in Column 2) by the total value of your shares at year-end. Consult a tax professional for more information.

15.98% of the amount reported in Box 1a on form 1099-DIV results from the sale of direct U.S. government obligations.

Percentages are the same for all fund classes (Investor, Advisor, R, and I classes). For more information on Advisor, R, Institutional, and Portfolio funds, please visit our website for financial intermediaries at troweprice.com/financial-intermediary/us/en/investments/tax-center.html.

N/A is indicated where a fund did not pay a taxable income dividend or short-term capital gain or pass through a foreign tax expense in 2023.

A dash indicates that the fund paid a dividend or short-term capital gain, but the income was not from government securities.

Most investors can take a credit or deduction for their share of foreign taxes paid, as reported in Box 7 of Form 1099-DIV, by their mutual funds with significant non-U.S. holdings. Taking a credit is usually more advantageous, but to qualify, you must have held your shares in a fund for at least 16 days of the 31-day period starting 15 days before the ex-dividend date of the fund. Refer to IRS Publication 514, Foreign Tax Credit for Individuals, and the Instructions for Form 1116, Foreign Tax Credit (Individual, Estate, or Trust) for additional information.

Foreign tax deduction

If you wish to take a deduction instead of a credit:

For each fund that paid foreign taxes, use Schedule A (Form 1040), Itemized Deductions, to report the amount from Box 7 of your Form 1099-DIV. See the instructions for Form 1040 for additional information.

Foreign tax credit

If you wish to take a credit, you may elect to report the total foreign taxes paid in Box 7 of your Form 1099-DIV directly on Schedule 3 (Form 1040) if you meet all of the following conditions:

- Your total creditable foreign taxes from all sources are not more than \$300 (\$600 if married filing jointly),
- All such income is passive (all ordinary income from T. Rowe Price funds is passive), and
- All such income and any foreign taxes paid are reported on Form 1099-DIV (or other qualified payee statement).

If you do not meet the conditions above, you generally will be required to complete Form 1116, Foreign Tax Credit (Individual, Estate, or Trust). Form 1116 computes a limitation on the amount of the foreign tax credit you may claim on your tax return. Information to assist you in completing your Form 1116 is provided in the tables below. Please note that you do not need to report the income or taxes paid by a mutual fund on a country-by-country basis on this form. To calculate your foreign source income and foreign source qualified income, multiply the amount in Box 1a of your Form 1099-DIV by the "Foreign Source Income Percentage" and "Foreign Source Qualified Dividend Percentage" columns, respectively. If your fund has foreign source qualified dividends, you may be required to make certain adjustments to this amount unless you qualify for an adjustment election. Please refer to the Instructions for Form 1116 for more detailed information.

Please consult with a tax professional for the impact to your tax return.

¹The fund received a refund of foreign taxes paid (with an interest adjustment) and the amount of Foreign Tax Paid in Box 7 may be less than what is included in Box 1 a for Ordinary Dividends on your Form 1099-DIV. Ordinary Dividends is the sum of your income dividends, short-term capital gain, foreign tax paid, as well as any interest adjustment.

If a fund is not listed, it did not pass through a foreign tax credit.

Percentages are the same for all fund classes (Investor, Advisor, R, and I classes). For more information on Advisor, R, Institutional, and Portfolio funds, please visit our website for financial intermediaries at troweprice.com/financial-intermediary/us/en/investments/tax-center.html.

Return of Capital

If a T. Rowe Price fund pays out more in distributions than it earned during the year, you do not owe tax on your share of the excess amount, which is called a "nontaxable distribution" or "return of capital." We report this type of distribution in Box 3 of Form 1099-DIV. You will need to subtract any amounts reported in Box 3 of Form 1099-DIV from the cost basis of your shares. For information on IRS Form 8937 and organizational actions affecting the basis of securities, including items such as mergers, fund liquidations, and reclassifications that affect cost basis, commonly referred to as "corporate actions," please visit our website at https://www.troweprice.com/personal-investing/resources/planning/tax/dividend-distributions/mutual-funds/corporate-actions.html.

Listed below are the 2023 dividends paid by the T. Rowe Price funds that have a return of capital for Form 1099-DIV purposes.

Reclassifications

A reclassification means that the tax character of the dividend on your Form 1099-DIV is different than the tax character reported on your statement, which reported the dividend to you. Tax character indicates whether the dividend is from taxable or tax-exempt income or is a short-term or long-term gain.

Listed below are the 2023 dividends paid by the T. Rowe Price funds that have been reclassified for Form 1099-DIV purposes.

| | | | Tax Character* | |
|-----------------------|-------------------|------------------|-----------------|------------------------|
| T. Rowe Price Fund | 2023 Payment Date | Per Share Amount | Before | After |
| Reclassifications | | | | |
| Real Estate | 12/18/2023 | \$0.093700000 | Income Dividend | Long-term Capital Gain |
| Real Estate - I Class | 12/18/2023 | 0.10000000 | Income Dividend | Long-term Capital Gain |

* Amounts after reclassification only represent the reclassified amount and not necessarily the fund's total per share for that category.

2023 QUALIFIED REIT DIVIDENDS

Beginning in 2018 (until the end of 2025), if you are a taxpayer other than a corporation, you are generally allowed a deduction of up to 20% of your qualified real estate investment trust (REIT) dividends. Qualified REIT dividends from a fund are reported in Box 5 of your Form 1099-DIV.

The table below reports the percentage of the ordinary dividend paid by the T. Rowe Price funds that may be eligible for the deduction. The data is provided here for informational purposes only and to assist you in your tax planning. In preparing your tax return, use the amount in Box 5 of your Form 1099-DIV.

Note that you may not take this deduction for a dividend on shares of a fund that have been held for less than 46 days during the 91-day period beginning on the date 45 days before the ex-dividend date.

If you own a fund that has more than one distribution during the year, the amount reported in Box 5 of your Form 1099-DIV will be based on the qualifying percentage of each distribution. Calculations based on the percentages below may yield amounts that differ from the amounts on your Form 1099-DIV due to rounding.

Please consult a tax professional for the impact on your return.

¹The percentage applies to the total of your ordinary dividends paid for the calendar year or other period, if indicated, as reported in Box 1a of your IRS Form 1099-DIV.

Percentages are the same for all fund classes (Investor, Advisor, R, and I classes). For more information on Advisor, R, Institutional, and Portfolio funds, please visit our website for financial intermediaries at troweprice.com/financial-intermediary/us/en/investments/tax-center.html.

If a fund is not listed, it did not pass through any qualified REIT dividends.

N/A is indicated where a fund did not pay a taxable income dividend or short-term capital gain or pass through a foreign tax expense in 2023.

A dash indicates that the fund paid a dividend or short-term capital gain, but it did not pass through qualified REIT dividends.

2023 LONG-TERM CAPITAL GAINS (UNRECAPTURED SECTION 1250 GAIN)

Capital gain distributions are taxed at various rates. For most long-term capital gains realized by a fund, the maximum tax rate is 20%. For the funds listed below, a portion of the long-term capital gain distribution is unrecaptured section 1250 gain and is subject to a maximum rate of 25%. Unrecaptured section 1250 gain is typically due to investments in real estate investment trusts (REITs) and is reported in Box 2b of Form 1099-DIV.

| T. Rowe Price Fund | Payment Date | Total Capital Gain Distribution Per Share Amount | Per Share Amount Subject to Max 20% Tax | Per Share Amount Subject to Max 25% (Section 1250 Gain) |
|---------------------------------|--------------|---|--|--|
| Unrecaptured Section 1250 Gains | | | | |
| Equity Income | 12/14/2023 | \$1.3003 | \$1.298456899 | \$0.001843101 |
| Extended Equity Market Index | 12/18/2023 | 0.7424 | 0.737829617 | 0.004570383 |

Amounts are the same for all fund classes (Investor, Advisor, R, and I classes). For more information on Advisor, R, Institutional, and Portfolio funds, please visit our website for financial intermediaries at troweprice.com/financial-intermediary/us/en/investments/tax-center.html.

If a fund is not listed, it did not have any unrecaptured section 1250 gains.

2023 DIVIDENDS-RECEIVED DEDUCTION

(for corporations)

Corporate taxpayers are generally entitled to a deduction for dividends received from another domestic corporation. To determine the amount of dividends qualifying for this deduction, multiply the "**Percentage Qualifying for Deduction**" (shown in the table) by the amount of your total ordinary dividends. Please note that ordinary dividends of a fund include, if applicable, net short-term capital gains and foreign taxes paid.

Note that you may not take this deduction for a dividend on shares of a fund that have been held 46 days or less during the 91-day period beginning on the date 45 days before the ex-dividend date.

¹This percentage applies to the sum of your income dividend plus short-term capital gain distribution paid for the calendar year or other period, if indicated, as reported in Box 1a of your IRS Form 1099-DIV.

Percentages are the same for all fund classes (Investor, Advisor, R, and I classes). For more information on Advisor, R, Institutional, and Portfolio funds, please visit our website for financial intermediaries at troweprice.com/financial-intermediary/us/en/investments/tax-center.html.

N/A is indicated where a fund did not pay a taxable income dividend or short-term capital gain or pass through a foreign tax expense in 2023.

A dash indicates that the fund paid a dividend or short-term capital gain, but it was not entitled to a deduction for dividends received.

2023 SECTION 163(j) INTEREST DIVIDENDS

(for corporations)

A fund that earns interest income may, in its discretion, designate all or a portion of ordinary dividends as Section 163(j) interest dividends, which would allow the recipient to treat the designated portion of such dividends as interest income for purposes of determining the business interest expense deduction limitation under Section 163(j) of the Internal Revenue Code.

To be eligible to treat a Section 163(j) interest dividend as interest income, you must have held the fund share for more than 180 days during the 361-day period beginning on the date which is 180 days before the date on which the share becomes ex-dividend with respect to such dividend unless an exception applies (see Footnote 1 below).

To determine the amount qualifying as 163(j) interest dividends, multiply the "**Percentage Qualifying as 163(j) Interest Dividends**" (shown in the table) by the amount of your total ordinary dividends. Please note that ordinary dividends of a fund include, if applicable, net short-term capital gains and foreign taxes paid.

If a fund is not listed, it did not designate any ordinary dividends as Section 163(j) interest dividends.

¹The holding period requirement does not apply to money market funds or funds that declare interest dividends on a daily basis in an amount equal to at least 90 percent of the fund's excess section 163(j) interest income and distribute such dividends on a monthly basis. You should always consult a tax professional concerning any tax item for your tax reporting purposes. Tax laws and regulations are complex and subject to change. Municipal Bond Funds Tax Facts

Although income generated by municipal bonds is generally exempt from federal tax, we want to remind you of the following:

- Exempt-interest dividends paid from T. Rowe Price tax-free funds are reported to the IRS. This amount, which you also must report to the IRS on your tax return, is shown in Box 12 of your Form 1099-DIV and must be reported on your Form 1040 along with any other tax-exempt interest or dividends you may have received.
- Income from municipal bonds may be subject to state and local income taxes.
- You may have to include a portion of your exempt-interest dividends in your calculation of the AMT (see Exhibit 3—Percentage of Income to Include in the AMT Calculation). This information is reported in Box 13 of your Form 1099-DIV.
- Tax-free funds' capital gains are subject to federal, state, and local taxes. The same rules apply if you have sold shares of tax-free funds.
- Fund capital gain distributions (if any) are reported on Form 1099-DIV, and proceeds from your own sales of fund shares are reported on Form 1099-B.
- If you receive Social Security benefits, the receipt of tax-free income may increase the portion of those benefits subject to income taxes.

Because of the complexity and diversity of state requirements, you may want to consult a tax professional or contact your state tax authority on taxability of income and gains and other reporting requirements. If you need help regarding your personal federal tax filings, you may want to consult a tax professional or contact the IRS.

EXHIBIT 1-2023 SOURCES OF NATIONAL TAX-FREE FUNDS' INCOME

Depending on your state's tax laws, the portion of your income dividend attributable to interest earned by a fund on securities issued by your state may be exempt from your state's tax. Please check your state's requirements. To determine this portion, multiply (1) the percentage of your fund's dividend that may be exempt from your state's income tax listed below by (2) the amount of exempt-interest dividends for your fund as reported in Box 12 of your Form 1099-DIV. In addition, check your state's rules to see if you may also exclude the percentages attributable to U.S. territories.

Note: Column totals may add up to more than 100% because income on some bonds is exempt in more than one state. * Percentages are the same for all fund classes (Investor, Advisor, and I classes). ¹All of the dividend income is subject to state tax because minimum threshold requirements were not met. ²Illinois does not exempt the portion of dividends from state or local obligations held indirectly through a mutual fund. ³Interest earned from a direct obligation of another state or political subdivision acquired before January 1, 2012, is exempt from Indiana income tax. The acquisition date by the shareholder of the mutual fund shares is considered to be the purchase date of the obligation when determining if the exemption applies. ⁴Some dividend income may be subject to tax. Only certain specified obligations are exempt in this state. Please consult with a tax professional. ⁴Some dividend income may be subject to tax. Only certain specified obligations are exempt on extrain states' obligations acquired before lanuary 1, 2003.

⁵Includes interest earned on Utah and applicable non-Utah obligations, including U.S. territories, and interest on certain states' obligations acquired before January 1, 2003.

EXHIBIT 2-2023 TAXABILITY OF STATE TAX-FREE FUNDS' DIVIDEND INCOME

All of the funds' dividends are exempt from federal income tax, and certain portions will also be exempt from state taxes for investors filing in that state.

To determine the state tax treatment of your fund dividends, multiply the percentage shown below by each fund's tax-free dividend income shown in Box 12 of your Form 1099-DIV. This amount is exempt from state tax.

| Tax-Free Fund* | Percentage of Dividend Income Exempt From State Tax |

EXHIBIT 3-2023 PERCENTAGE OF INCOME TO INCLUDE IN THE ALTERNATIVE MINIMUM TAX CALCULATION

This table is relevant only for investors who must calculate the alternative minimum tax (AMT). It reflects the percentage of income earned by each tax-free fund from investments in "private activity" bonds. Such income is subject to the AMT calculation.

Please note that this table is for informational purposes only. The portion of your exempt-interest dividends, if any, subject to the AMT calculation is reported in Box 13 of your Form 1099-DIV. Please use the Box 13 amount when preparing your tax return, if applicable.
