

# KEEP YOUR PLAN IN SHAPE WITH PLAN HEALTH

## Bringing data and analytics to the surface.

Plan Health serves up critical and meaningful metrics so you always know how your plan is performing.

### Plan Snapshot

High-level plan and asset and investment data with the ability to dig into the details.

### Confidence Number®

Discover how confident your participants can be about achieving retirement savings goals.

### Channel Engagement

Get key metrics and trending on how your participants are engaging with T. Rowe Price over time.

### Loans

Review the latest metrics and how loans are being used in your plan.

### Plan Analytics

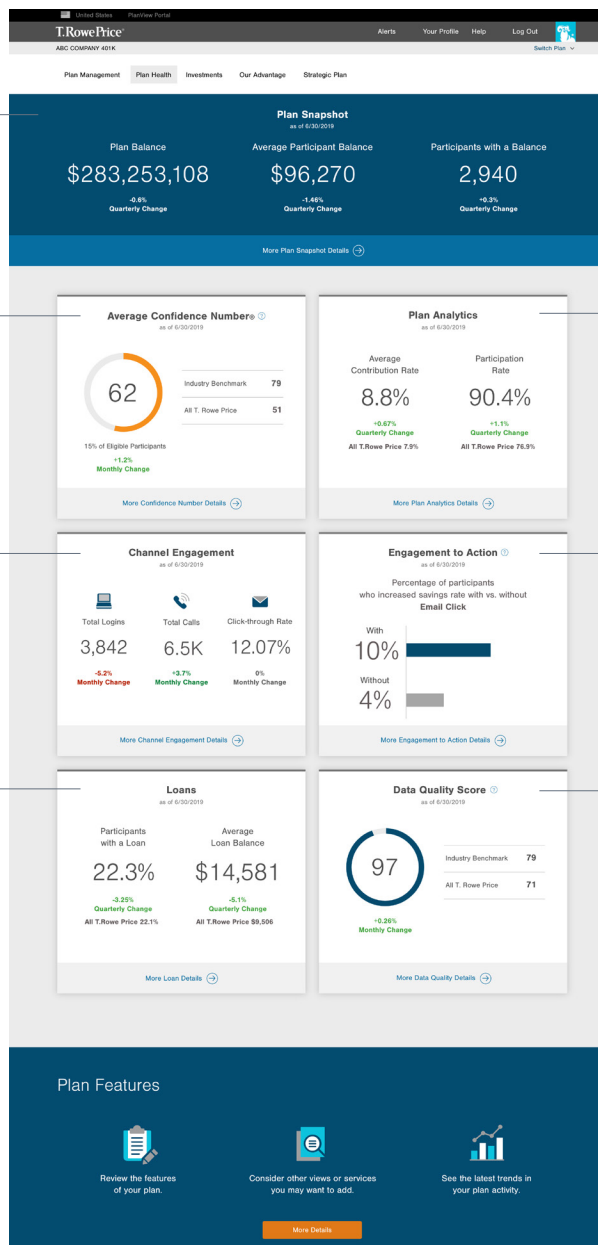

See how your plan's key analytics compare with T. Rowe Price and industry averages.

### Engagement to Action

Determine how many participants increased their contributions after one of six specific engagements.

### Data Quality Score

Identify opportunities to improve plan data quality.
