There may be circumstances where a Fund has indirect exposure to a corporate or sovereign issuer involved in the excluded categories. Examples of these circumstances could include an investment in an instrument that gives exposure to an index, or an investment in a Fund managed by an unaffiliated investment manager.

Considerations taken into account in determining the exclusion list include the conclusions of external research providers, engagements with the company, the direct, indirect or ongoing nature of any involvement in a specific category or incident and evidence of exclusion by other investors.
