

T. ROWE PRICE FUNDS OEIC

US Equity Fund – Proxy Voting Summary

12 months ending 30 June 2020

PROXY VOTING PROGRAM OVERVIEW

Proxy voting is a crucial link in the chain of stewardship responsibilities we execute on behalf of our clients. Each vote represents both the privileges and the responsibilities that come with owning a company's equity instruments.

We take our responsibility to vote our clients' shares very seriously - taking into account both high-level principles of corporate governance and company-specific circumstances. Our overarching objective is to cast votes to foster long-term, sustainable success for the company and its investors.

T. Rowe Price portfolio managers are ultimately responsible for the voting decisions within the strategies they manage. They receive recommendations and support from a range of internal and external resources:

- The T. Rowe Price ESG Committee
- Our global industry analysts
- Our specialists in corporate governance and responsible investment
- ISS, our external proxy advisory firm

Our proxy voting program serves as one element of our overall relationship with corporate issuers. We use our voting power in a way that complements the other aspects of our relationship with these companies, including engagement, investment diligence, and investment decision-making.

SUMMARY OF MAJOR PROPOSAL ITEMS

The following table breaks down voting records into categories. Some categories, such as the election of directors, are universal across the markets where we invest. Other voting issues are unique to select regions. For management-sponsored proposals, a vote "FOR" is a vote aligned with the board's recommendation. For shareholder-sponsored proposals, a vote "FOR" is generally a vote contrary to the board's recommendation.
