Investment Strategy and Implementation

Objective

To increase the value of its shares through growth in the value of its investments.

Portfolio securities

The fund is actively managed and invests mainly in a diversified portfolio of shares of companies in the United States.

The fund may use derivatives for hedging and efficient portfolio management.

Investment process

The investment manager's approach is to:

- Target attractive opportunities across the investable universe, irrespective of growth or value style.
- Utilise a proprietary global research platform using fundamental analysis with a bottom-up approach combined with an in-depth valuation assessment.
- Integrate an active risk management process throughout its analysis.
- Assess environmental, social and governance ("ESG") factors to identify those considered most likely to have a material impact on the performance of the holdings or potential holdings in the fund's portfolio.

Key Material Medium to Long-term Risks

Securities issued by large-cap companies tend to be less volatile than securities issued by smaller companies. However, larger companies may not be able to attain the high growth rates of successful smaller companies, especially during strong economic periods, and may be unable to respond as quickly to competitive challenges.

Investment Decisions and Conflicts of Interest

Generally speaking, the ownership structure of our company serves to eliminate certain categories of potential conflicts of interest with regard to our stewardship activities. At T. Rowe Price, our overarching approach to dealing with potential conflicts of interest is to resolve them in the manner that solely takes into consideration the interests of our clients. With regards to engagement activities, we believe the most likely source of any potential conflicts between the interests of our firm and the interests of our clients would arise in the context of proxy voting or engagement. Our publicly disclosed Proxy Voting Policies and Engagement Policy offer details about how we manage such potential conflicts of interest. In addition for separately managed accounts, if T. Rowe Price received voting instruction from the account owner which may give rise to conflicts of interests in T. Rowe Price's opinion, this will be reported to the clients for discussion before execution.
