Investment Information

Investment Objective & Strategy

The Fund shall be invested and reinvested in a portfolio of equity securities with the objective of approximating as closely as practicable the capitalization weighted total rate of return of the segment of the United States market for publicly traded equity securities represented by the 3,000 largest capitalized companies. The criterion for the selection of investments shall be the Russell 3000 Index. The Fund uses a passive or indexing approach to try to achieve the investment objective. Unlike many funds, the Fund does not try to outperform the index it seeks to track and does not seek temporary defensive positions when markets decline or appear overvalued.

Category Description: Large Blend

Large-blend portfolios are fairly representative of the overall US stock market in size, growth rates and price. Stocks in the top 70% of the capitalization of the US equity market are defined as large cap. The blend style is assigned to portfolios where neither growth nor value characteristics predominate. These portfolios tend to invest across the spectrum of US industries, and owing to their broad exposure, the portfolios' returns are often similar to those of the S&P 500 Index.

Volatility and Risk

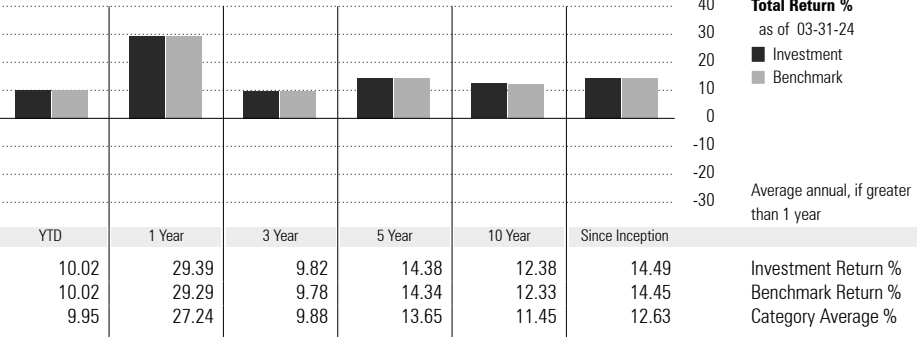

Best 3 Month Return

22.04%
(Apr '20 - Jun '20)

Worst 3 Month Return

-20.86%
(Jan '20 - Mar '20)

Performance as of 03-31-24

The performance data quoted reflects past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower than the performance data quoted. For the most recent month end performance information, please call 1-800-922-9945, or visit rps.troweprice.com.
