

STRATEGY HIGHLIGHTS

As of 31 March 2024

Global Real Estate Equity Strategy

Total Global Real Estate Strategy Assets:¹ \$4.6 billion

Figures shown in U.S. Dollars

INVESTMENT APPROACH

- Employ fundamental research with a bottom-up approach.
- Assess the capability, strategy, and management of the business.
- Evaluate the asset base potential.
- Understand the supply and demand dynamics by property and market.
- Analyze balance sheet strength and flexibility.
- Integrate a risk-adjusted perspective throughout our analysis.
- Establish whether we would want to own a business for the long term.
- Leverage the deep knowledge base at T. Rowe Price, including dedicated analysts in North America, Europe, and Asia.

PORTFOLIO CONSTRUCTION

- Typically 40-80 securities
- Invest in highest conviction ideas
- Diversified by property type and geography, with at least 40% invested outside the U.S.
- Sector weights are the result of bottom-up security selection
- Country weightings +/- 10% of the benchmark
- Individual position sizes range from +/- 5% of the benchmark
- Continually monitor investments to ensure:
 - Execution and results are tracking our expectations
 - Strategy intact and investment thesis unfolding as expected

BENCHMARK

- FTSE EPRA Nareit Developed Index

PORTFOLIO MANAGEMENT

Jai Kapadia

- 17 years of investment experience; 12 years with T. Rowe Price.
- M.B.A., Massachusetts Institute of Technology, Sloan School of Management
- B.A., Columbia University

PORTFOLIO SPECIALISTS

Brian Dausch, CFA®

- 26 years of investment experience; 25 years with T. Rowe Price.
- B.S., University of Delaware

Portfolio Specialists do not assume management responsibilities.

CFA® and Chartered Financial Analyst® are registered trademarks owned by CFA Institute.

¹ Includes a U.S.-registered mutual fund, a sub-fund of a Luxembourg domiciled SICAV and the Global Real estate portion of the Real Assets Fund and Trust.

FTSE EPRA Nareit Developed Index	-1.05	8.57	-0.20	0.74	4.00	9.97
Value Added (Gross)	1.30	0.38	1.05	2.13	0.67	0.63
Value Added (Net)	1.15	-0.27	0.45	1.51	0.05	-0.03

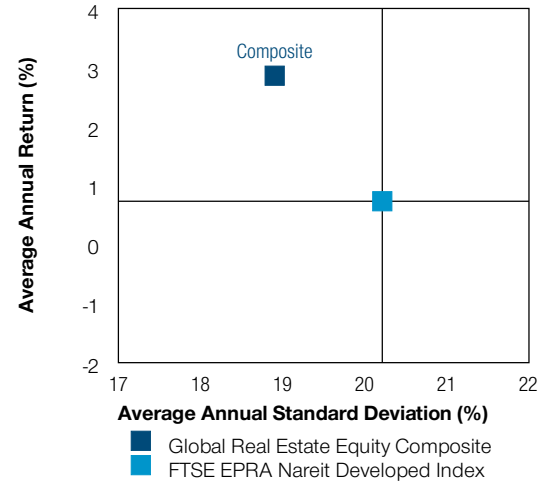

Past performance is not a reliable indicator of future performance.

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the highest applicable management fee that would be charged based on the fee schedule contained within this material, without the benefit of breakpoints. Gross and net performance returns reflect the reinvestment of dividends and are net of all non-reclaimable withholding taxes on dividends, interest income, and capital gains.

See GIPS® Composite Report located in this material for additional information.

RISK/RETURN CHARACTERISTICS

Five Years ended 31 March 2024

Past performance is not a reliable indicator of future performance. Statistics based on monthly gross returns. Returns would have been lower as the result of the deduction of applicable fees.

FEE SCHEDULE

Global Real Estate Equity Composite

The Global Real Estate Equity Composite seeks capital growth and current income by investing in global companies engaged in the real estate industry. (Created October 2008) SUB

First \$50 million	60 basis points
Next \$50 million	55 basis points
Above \$100 million	55 basis points *
Above \$200 million	50 basis points *

* A transitional credit is applied to the fee schedule as assets approach or fall below the break point.

¹The fee rate used to calculate net returns is 1.77%. This represents the maximum fee rate applicable to all composite members. **Past performance is not a reliable indicator of future performance.**

²Primary benchmark is FTSE EPRA/NAREIT Developed Real Estate Index and secondary benchmark is FTSE EPRA/NAREIT Developed Real Estate Index Net.

³Preliminary - subject to adjustment.

T. Rowe Price (TRP) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. TRP has been independently verified for the 27-year period ended June 30, 2023 by KPMG LLP. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm wide basis. Verification does not ensure the accuracy of any specific composite presentation. TRP is a U.S. investment management firm with various investment advisers registered with the U.S. Securities and Exchange Commission, the U.K. Financial Conduct Authority, and other regulatory bodies in various countries and holds itself out as such to potential clients for GIPS purposes. TRP further defines itself under GIPS as a discretionary investment manager providing services primarily to institutional clients with regard to various mandates, which include U.S., international, and global strategies but excluding the services of the Private Asset Management group. As of October 1, 2022, there is no minimum asset level for portfolio inclusion into the composite. Prior to October 2022, the minimum asset level for equity portfolios to be included in composites was \$5 million. The minimum asset level for fixed income and asset allocation portfolios to be included in composites was \$10 million. Valuations are computed and performance reported in U.S. dollars.

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the maximum fee rate applicable to all composite members as shown above. Gross performance returns reflect the reinvestment of dividends and are net of nonreclaimable withholding taxes on dividends, interest income, and capital gains. Gross performance returns are used to calculate presented risk measures. Effective June 30, 2013, portfolio valuation and assets under management are calculated based on the closing price of the security in its respective market. Previously portfolios holding international securities may have been adjusted for after-market events. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Dispersion is measured by the standard deviation across asset-weighted portfolio returns represented within a composite for the full year. Dispersion is not calculated for the composites in which there are five or fewer portfolios. Some portfolios may trade futures, options, and other potentially high-risk derivatives that may create leverage and generally represent in aggregate less than 10% of a portfolio.

Benchmarks are taken from published sources and may have different calculation methodologies, pricing times, and foreign exchange sources from the composite.

Composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow greater than or equal to 5% of portfolio assets. The temporary removal of such an account occurs at the beginning of the measurement period in which the significant cash flow occurs and the account re-enters the composite on the last day of the current month after the cash flow. Additional information regarding the treatment of significant cash flows is available upon request.

The firm's list of composite descriptions, a list of limited distribution pooled fund descriptions, and a list of broad distribution pooled funds are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

ADDITIONAL DISCLOSURES

Portfolio Construction: There is no guarantee that the investment will remain within the anticipated ranges of exposure.

Unless indicated otherwise the source of all data is T. Rowe Price.

The specific securities identified and described do not represent all of the securities purchased, sold or recommended for the portfolio, and no assumptions should be made that the securities identified and discussed were or will be profitable.

FTSE is a trade mark of the LSE Group and is used by FTSE International Limited ("FTSE") under license. "NAREIT" is a trade mark of the Nareit. All rights in the FTSE EPRA Nareit Developed Index (the "Index") vest in FTSE and Nareit. Neither FTSE, nor the LSE Group, nor Nareit accept any liability for any errors or omissions in the indexes or data and no party may rely on any indexes or data contained in this communication. No further distribution of data from the FTSE or Nareit is permitted without the relevant FTSE's express written consent. Risks

The following risks are materially relevant to the portfolio.

Currency - Currency exchange rate movements could reduce investment gains or increase investment losses. **Real estate** - Real estate and related investments can be hurt by any factor that makes an area or individual property less valuable. **Sector concentration** - Sector concentration risk may result in performance being more strongly affected by any business, industry, economic, financial or market conditions affecting a particular sector in which the portfolio's assets are concentrated. **Small and mid-cap** - Small and mid-size company stock prices can be more volatile than stock prices of larger companies.

General Portfolio Risks

Equity - Equities can lose value rapidly for a variety of reasons and can remain at low prices indefinitely. **ESG and sustainability** - ESG and Sustainability risk may result in a material negative impact on the value of an investment and performance of the portfolio. **Geographic concentration** - Geographic concentration risk may result in performance being more strongly affected by any social, political, economic, environmental or market conditions affecting those countries or regions in which the portfolio's assets are concentrated. **Investment portfolio** - Investing in portfolios involves certain risks an investor would not face if investing in markets directly. **Management** - Management risk may result in potential conflicts of interest relating to the obligations of the investment manager. **Market** - Market risk may subject the portfolio to experience losses caused by unexpected changes in a wide variety of factors. **Operational** - Operational risk may cause losses as a result of incidents caused by people, systems, and/or processes.
