

STRATEGY HIGHLIGHTS

As of 30 June 2021

Emerging Markets Corporate Bond Strategy

Total Emerging Markets Corporate Bond Strategy Assets:¹ \$2.0 billion²

Figures shown in U.S. Dollars

INVESTMENT APPROACH

- Focus primarily on corporate debt issued by companies domiciled within emerging market countries.
- Integrate proprietary credit research and relative value analysis.
- Establish independent credit rating for each company and country.
- Add value primarily through individual security selection decisions.
- Limit risk through diversification.
- Employ long-term investment horizon combined with low portfolio turnover.
- Utilize collaboration across macroeconomic, equity and corporate debt teams to take a comprehensive view of corporate debt securities.

PORTFOLIO CONSTRUCTION

- Diversified portfolio structure: typically 100-150 securities
- Duration bands: managed within +/- 1 year of the benchmark
- Expected average credit quality: BB
- Maximum corporate issuer exposure of 3%
- Country exposure will range between +/- 20% of index
- Corporate sector exposure will range between +/- 20% of index
- Expected tracking error will range between 250 - 450 bps

BENCHMARK

- J.P. Morgan Corporate Emerging Market Bond Index Broad Diversified

PERFORMANCE

	Three Months	Year-to-Date	One Year	Annualized		
				Three Years	Five Years	Ten Years
Emerging Markets Corporate Bond Full-Authority Composite (Gross)	2.11%	1.32%	11.40%	8.62%	7.00%	6.38%
Emerging Markets Corporate Bond Full-Authority Composite (Net)	1.98	1.05	10.79	8.02	6.41	5.80
J.P. Morgan Corporate Emerging Market Bond Index Broad Diversified	2.10	1.28	8.67	7.51	5.79	5.58
Value Added (Gross)	0.01	0.04	2.73	1.11	1.21	0.80
Value Added (Net)	-0.12	-0.23	2.12	0.51	0.62	0.22

Past performance is not a reliable indicator of future performance.

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the highest applicable management fee that would be charged based on the fee schedule contained within this material, without the benefit of breakpoints. Gross and net performance returns reflect the reinvestment of dividends and are net of all non-reclaimable withholding taxes on dividends, interest income, and capital gains.

See GIPS Composite Report located in this material for additional information.

For Sourcing Information, please see Additional Disclosures.

RISK/RETURN CHARACTERISTICS

Five Years ended 30 June 2021

Past performance is not a reliable indicator of future performance. Statistics based on monthly gross returns. Returns would have been lower as the result of the deduction of applicable fees.

For Sourcing Information, please see Additional Disclosures.

FEE SCHEDULE**Emerging Markets Corporate Bond Full-Authority Composite**

The Emerging Markets Corporate Bond Full-Authority Composite is comprised of portfolios seeking current income and capital appreciation primarily through investment in a broader universe of fixed income corporate debt securities and quasi-sovereign debt securities issued by companies located or having a business activity in emerging/developing countries. While largely focused on dollar-denominated corporate bonds, the composite has the ability to invest in local currency corporates as well as dollar-denominated sovereigns. The Full-Authority composite maintains broader discretion seeking to invest in the entire emerging markets corporate universe (Created December 2017, incepted May 31, 2011.)(Formerly known as Emerging Markets Corporate Bond Composite)

First \$50 million	55 basis points
Next \$50 million	50 basis points
Above \$100 million	45 basis points on all assets *
Above \$250 million	40 basis points on all assets *
Minimum separate account size	\$50 million

*A transitional credit is applied to the fee schedule as assets approach or fall below the break point.

³Preliminary - subject to adjustment.

T. Rowe Price (TRP) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. TRP has been independently verified for the 24-year period ended June 30, 2020 by KPMG LLP. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm wide basis. Verification does not ensure the accuracy of any specific composite presentation. TRP is a U.S. investment management firm with various investment advisers registered with the U.S. Securities and Exchange Commission, the U.K. Financial Conduct Authority, and other regulatory bodies in various countries and holds itself out as such to potential clients for GIPS purposes. TRP further defines itself under GIPS as a discretionary investment manager providing services primarily to institutional clients with regard to various mandates, which include U.S., international, and global strategies but excluding the services of the Private Asset Management group. The minimum asset level for equity portfolios to be included in composites is \$5 million and prior to January 2002 the minimum was \$1 million. The minimum asset level for fixed income and asset allocation portfolios to be included in composites is \$10 million; prior to October 2004 the minimum was \$5 million; and prior to January 2002 the minimum was \$1 million. Valuations are computed and performance reported in U.S. dollars.

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the highest applicable management fee that would be charged based on the fee schedule contained within this material, without the benefit of breakpoints. Gross and net performance returns reflect the reinvestment of dividends and are net of nonreclaimable withholding taxes on dividends, interest income, and capital gains. Effective June 30, 2013, portfolio valuation and assets under management are calculated based on the closing price of the security in its respective market. Previously portfolios holding international securities may have been adjusted for after-market events. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Dispersion is measured by the standard deviation across asset-weighted portfolio returns represented within a composite for the full year. Dispersion is not calculated for the composites in which there are five or fewer portfolios.

Some portfolios may trade futures, options, and other potentially high-risk derivatives which generally represent less than 10% of a portfolio.

Benchmarks are taken from published sources and may have different calculation methodologies, pricing times, and foreign exchange sources from the composite.

Composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow greater than or equal to 15% of portfolio assets. The temporary removal of such an account occurs at the beginning of the measurement period in which the significant cash flow occurs and the account re-enters the composite on the last day of the current month after the cash flow. Additional information regarding the treatment of significant cash flows is available upon request.

The firm's list of composite descriptions, a list of limited distribution pooled fund descriptions, and a list of broad distribution pooled funds are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

A portfolio management change occurred effective June 30, 2020. There were no changes to the investment program or strategy related to this composite.

ADDITIONAL DISCLOSURES

Portfolio Construction: There is no guarantee that the investment will remain within the anticipated ranges of exposure.

Weighted Average Maturity is an average of the maturities of the underlying bonds, with each bond's maturity weighted by the percentage of Composite assets it represents. Weighted Average Effective Duration is a calculation that seeks to measure the price sensitivity of the Composite to changes in interest rates. In general, the longer the average maturity or duration, the greater the Composite's sensitivity to interest rates. Duration is a better indicator of price sensitivity because it takes into account the time value of cash flows.

Unless indicated otherwise the source of all data is T. Rowe Price.

The specific securities identified and described do not represent all of the securities purchased or sold for this Composite. This information is not intended to be a recommendation to take any particular investment action and is subject to change. No assumption should be made that the securities identified and discussed were or will be profitable.

Credit ratings are statements of opinions and are not statements of fact.

T. Rowe Price uses a custom structure for diversification reporting on this product.

Diversification exhibits may not add to 100% due to exclusion or inclusion of cash.

Sources for credit quality: Moody's Investors Service; if Moody's does not rate a security, then Standard & Poor's (S&P) is used as a secondary source. When available, T. Rowe Price will use Fitch for securities that are not rated by Moody's or S&P. T. Rowe Price does not evaluate these ratings, but simply assigns them to the appropriate credit quality category as determined by the rating agency. T. Rowe Price uses the rating of the underlying investment vehicle for credit default swaps.

The representative portfolio is an account in the composite we believe most closely reflects current portfolio management style for the strategy. Performance is not a consideration in the selection of the representative portfolio. The characteristics of the representative portfolio shown may differ from those of other accounts in the strategy. Please see the GIPS Disclosure page for additional information on the composite.

"Other" includes any categories not explicitly mentioned.

Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.

Risks

The following risks are materially relevant to the portfolio.

China Interbank Bond Market risk - Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly.

Contingent convertible bond risk - Contingent convertible bonds have similar characteristics to convertible bonds with the main exception that their conversion is subject to predetermined conditions referred to as trigger events usually set to capital ratio and which vary from one issue to the other.

Country risk (China) - All investments in China are subject to risks similar to those for other emerging markets investments. In addition, investments that are purchased or held in connection with a QFII licence or the Stock Connect program may be subject to additional risks.

Credit risk - A bond or money market security could lose value if the issuer's financial health deteriorates.

Default risk - The issuers of certain bonds could become unable to make payments on their bonds.

Derivatives risk - Derivatives may result in losses that are significantly greater than the cost of the derivative.

Emerging markets risk - Emerging markets are less established than developed markets and therefore involve higher risks.

Frontier markets risk - Small market nations that are at an earlier stage of economic and political development relative to more mature emerging markets typically have limited investability and liquidity.

High yield bond risk - A bond or debt security rated below BBB- by Standard and Poors or an equivalent rating, also termed below investment grade, is generally subject to higher yields but to greater risks too.

Interest rate risk - When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.

Liquidity risk - Any security could become hard to value or to sell at a desired time and price.

Sector concentration risk - The performance of a portfolio that invests a large portion of its assets in a particular economic sector (or, for bond portfolios, a particular market segment), will be more strongly affected by events affecting that sector or segment of the fixed income market.

General Portfolio Risks

Capital risk - The value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the portfolio and the currency in which you subscribed, if different.

Counterparty risk - An entity with which the portfolio transacts may not meet its obligations to the portfolio. **Geographic concentration risk** - To the extent that a portfolio invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by events within that area. **Hedging risk** - A portfolio's attempts to reduce or eliminate certain risks through hedging may not work as intended. **Investment portfolio risk** - Investing in portfolios involves certain risks an investor would not face if investing in markets directly. **Management risk** - The investment manager or its designees may at times find their obligations to a portfolio to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably). **Operational risk** - Operational failures could lead to disruptions of portfolio operations or financial losses.

IMPORTANT INFORMATION

This material is being furnished for general informational and/or marketing purposes only. The material does not constitute or undertake to give advice of any nature, including fiduciary investment advice, nor is it intended to serve as the primary basis for an investment decision. Prospective investors are recommended to seek independent legal, financial and tax advice before making any investment decision. T. Rowe Price group of companies including T. Rowe Price Associates, Inc. and/or its affiliates receive revenue from T. Rowe Price investment products and services. **Past performance is not a reliable indicator of future performance.** The value of an investment and any income from it can go down as well as up. Investors may get back less than the amount invested.

The material does not constitute a distribution, an offer, an invitation, a personal or general recommendation or solicitation to sell or buy any securities in any jurisdiction or to conduct any particular investment activity. The material has not been reviewed by any regulatory authority in any jurisdiction.

Information and opinions presented have been obtained or derived from sources believed to be reliable and current; however, we cannot guarantee the sources' accuracy or completeness. There is no guarantee that any forecasts made will come to pass. This material has been prepared for informational purposes only. The views and opinions stated in this commentary are those of the portfolio managers listed as of the date indicated. These views and opinions are subject to change based on market or other conditions and may differ from those of other T. Rowe Price associates. Actual market and investment results may differ materially from expectations. Under no circumstances should the material, in whole or in part, be copied or redistributed without consent from T. Rowe Price.

The material is not intended for use by persons in jurisdictions which prohibit or restrict the distribution of the material and in certain countries the material is provided upon specific request.

It is not intended for distribution to retail investors in any jurisdiction.

Australia - Issued in Australia by T. Rowe Price Australia Limited (ABN: 13 620 668 895 and AFSL: 503741) which is registered in Australia with its registered office at Level 50, Governor Phillip Tower, 1 Farrer Place, Sydney NSW 2000. T. Rowe Price Australia Limited is licensed by the Australian Securities and Investments Commission. For Wholesale Clients only.
