

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global High Income Bond Fund

a sub-fund of T. Rowe Price Funds SICAV
Class Qdn (GBP) (ISIN: LU1244140320)

Management company: T. Rowe Price (Luxembourg) Management S.à r.l.

Objectives and Investment Policy

Objective To maximise the value of its shares through both growth in the value of, and income from, its investments.

Portfolio securities The fund is actively managed and invests mainly in a diversified portfolio of high yield corporate bonds from issuers around the world, including emerging markets.

The fund may use derivatives for hedging, efficient portfolio management and investment purposes. The fund may also use derivatives to create synthetic short positions in debt securities and credit indices. The fund may use total return swaps (TRS).

Investment process The investment manager's approach is based on proprietary fundamental research and relative value analysis. The investment manager seeks to add value primarily through security selection and sector allocation. The investment process places a strong emphasis on risk management practices and portfolio diversification to manage the overall risk profile. The investment manager also assesses environmental, social and governance ("ESG") factors with particular focus on those considered most likely to have a material impact on the performance of the holdings or potential holdings in the funds' portfolio. These ESG factors, which are incorporated into the investment process alongside financials, valuation, macro-economics and other factors, are components of the investment decision. Consequently, ESG factors are not the sole driver of an investment decision but are instead one of several important inputs considered during investment analysis.

Benchmark ICE BofA Merrill Lynch Global High Yield Index Hedged to USD. The investment manager is not constrained by any country, sector and/or individual security weightings relative to the benchmark index and has complete freedom to invest in securities that do not form part of the benchmark. However, at times, market conditions may result in the fund's performance being more closely aligned with that of the benchmark index.

Benchmark use

- Performance comparison.
- Reference portfolio for risk management method (relative VaR).

Portfolio reference currency USD

that is a full bank business day in Luxembourg.

Orders received and accepted by 13:00 Luxembourg time on a business day will generally be processed that day.

Designed for Investors who plan to invest for the medium to long term.

Other Information:

Income in the share class is distributed to investors.

Orders to buy, switch and redeem shares are ordinarily processed any day

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The value of an investment in the fund can go up and down. When you sell your shares, they may be worth less than what you paid for them. If your currency as an investor is different from the subscription currency of the fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The risk/reward rating above is based on medium-term volatility (actual or estimated variations in the fund's share price over five years) but is not a reliable indicator of future risk reward profile.

The lowest category does not mean a risk-free investment.

The fund is in the category shown because it invests in a segment of the market that is moderately volatile.

The fund's risk level reflects the following:

- As a class, bonds carry higher risks than money market securities and lower risks than equities.
- High yield bonds have higher price volatility than investment-grade bonds.

MAIN RISKS TYPICALLY ASSOCIATED WITH ORDINARY MARKET CONDITIONS

The fund's main risks are at least partially reflected in the risk/reward number. The most important of these risks are:

Emerging markets are less established than developed markets and therefore involve higher risks.

ESG and Sustainability risk may result in a material negative impact on the value of an investment and performance of the fund.

Frontier markets are less mature than emerging markets and typically have higher risks, including limited investability and liquidity.

High Yield Bond High yield debt securities are generally subject to greater risk of issuer debt restructuring or default, higher liquidity risk and greater sensitivity to market conditions.

Investment Fund involves certain risks an investor would not face if investing in markets directly.

MAIN RISKS TYPICALLY ASSOCIATED WITH UNUSUAL MARKET CONDITIONS

Unusual market conditions or large unpredictable events can amplify the fund's main risks. They can also trigger other risks, such as:

Contingent Convertible Bonds may be subject to additional risks linked to: capital structure inversion, trigger levels, coupon cancellations, call extensions, yield/valuation, conversions, write downs, industry concentration and liquidity, among others.

Counterparty risk may materialise if an entity with which the fund does business becomes unwilling or unable to meet its obligations to the fund.

Derivatives may be used to create leverage which could expose the fund to higher volatility and/or losses that are significantly greater than the cost of the derivative.

Liquidity risk may result in securities becoming hard to value or trade within a desired timeframe at a fair price.

Operational risk may cause losses as a result of incidents caused by people, systems, and/or processes.

A more detailed description of the risks that apply to the fund is set out in the section "Risk Descriptions" in the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.77%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The **entry** and **exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your distributor or financial adviser.

The **ongoing charges** figure is based on expenses for the year ending 12/2020. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units/shares in another collective investment undertaking.

For more information about charges, please see the sections entitled "NOTES ON FUND COSTS" and "EXPENSES" in the fund's prospectus, which is available at www.troweprice.com/sicavfunds.

Past Performance

The past performance indicated is not a reliable indicator of future performance.

The past performance calculation includes all ongoing charges, but excludes any entry charge applied.

The fund and class started to issue shares in 2015.

Past performance has been calculated in GBP. For currency hedged share classes, the benchmark index may be hedged to the currency of that share class.

Practical Information

The fund's depositary is J.P. Morgan Bank Luxembourg S.A.

Further information about the fund, copies of its prospectus, latest annual report and any subsequent half-yearly report can be obtained, free of charge, from J.P. Morgan Bank Luxembourg S.A., or at www.troweprice.com/sicavfunds. These documents are available in English and certain other languages (fully detailed on the website).

The latest share prices can be obtained from J.P. Morgan Bank Luxembourg S.A.

The tax legislation of Luxembourg, the fund's home Member State, may have an impact on the personal tax position of the investor.

T. Rowe Price (Luxembourg) Management S.à r.l. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the fund.

Investors in the fund have the right to exchange their shares in the fund for shares in another compartment. Information about how to exercise this right is contained in the section of the prospectus entitled "Conversion of Shares".

This document describes a compartment of T. Rowe Price Funds SICAV and the prospectus and periodic reports referenced in this document are prepared for the whole of the T. Rowe Price Funds SICAV. The assets and liabilities of each compartment are segregated by law, which means that third party creditors have recourse only to the compartment having incurred the liability.

Investors can obtain information about the other classes of the fund in the appendix to the prospectus describing this fund.

The details of the up-to-date remuneration policy statement setting out the key remuneration elements, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on the website www.troweprice.com/trpluxembourgmanagementsarlremunerationpolicy. A paper copy of the remuneration policy statement is available free of charge at the registered office of T. Rowe Price (Luxembourg) Management S.à r.l.

This fund is authorised in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier. The management company is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier. This key investor information is accurate as at 16/02/2021.
