

STRATEGY HIGHLIGHTS

As of 30 September 2021

Asia Opportunities Equity Strategy

Total Strategy Assets:¹ \$1.8 billion²

Figures shown in U.S. Dollars

INVESTMENT APPROACH

- Seeking long term capital appreciation to come from owning high quality businesses that will reliably compound earnings cash flow generation over time.
- In Asia, this type of company tends to exhibit three key characteristics:
 - Established companies with leading market positions.
 - Good management teams who care about shareholder returns.
 - Returns-focused capital allocation and prudent balance sheet management.
- Fundamental research is critical in helping us to identify these characteristics and exploit market inefficiencies:
 - Focus on the long term. Be patient.
 - Gain a better understanding of the durability of a company's prospects than the market.
 - More accurately assess a company's intrinsic value than other market participants.

PORTFOLIO CONSTRUCTION

- Typically 40-70 stock portfolio
- Individual positions typically range from 0.50% to 6.00%.
- Country and sector weightings a residual of stock selection.
- Cash position typically less than 5%.

BENCHMARK

- MSCI All Country Asia ex Japan Index Net

PORTFOLIO MANAGEMENT

Eric Moffett

- 21 years of investment experience; 14 years with T. Rowe Price.
- M.B.A., Harvard Business School
- B.A., Princeton University

Jihong Min

- 18 years of investment experience; 9 years with T. Rowe Price.
- B.S., State University of New York

PORTFOLIO SPECIALISTS

Irmak Surenkok

- 19 years of investment experience; 4 years with T. Rowe Price.
- B.A., Victoria University of Wellington

Portfolio Specialists do not assume management responsibilities.

Effective 1 July 2021, Jihong Min assumed co-portfolio management responsibility for the Composite.

¹ Includes a U.S.-registered mutual fund and a sub-fund of a Luxembourg domiciled SICAV.

² Assets reported are as of 30 June 2021.

TOP AND BOTTOM FIVE OVER/UNDERWEIGHTS

PERFORMANCE

	Three Months	Year-to-Date	One Year	Annualized		
				Three Years	Five Years	Since Inception 31 May 2014
Asia Opportunities Equity Composite (Gross)	-9.53%	-3.41%	15.30%	14.32%	13.66%	11.72%
Asia Opportunities Equity Composite (Net)	-9.69	-3.92	14.50	13.53	12.87	10.95
MSCI All Country Asia ex Japan Index Net	-9.33	-3.53	14.42	9.19	10.13	7.23
Value Added (Gross)	-0.20	0.12	0.88	5.13	3.53	4.49
Value Added (Net)	-0.36	-0.39	0.08	4.34	2.74	3.72

Past performance is not a reliable indicator of future performance.

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the highest applicable management fee that would be charged based on the fee schedule contained within this material, without the benefit of breakpoints. Gross and net performance returns reflect the reinvestment of dividends and are net of all non-reclaimable withholding taxes on dividends, interest income, and capital gains.

See GIPS Composite Report located in this material for additional information.

For Sourcing Information, please see Additional Disclosures.

RISK/RETURN CHARACTERISTICS

Five Years ended 30 September 2021

Past performance is not a reliable indicator of future performance. Statistics based on monthly gross returns. Returns would have been lower as the result of the deduction of applicable fees.

FEE SCHEDULE**Asia Opportunities Equity Composite**

The Asia Opportunities Equity Composite seeks long-term capital appreciation primarily through investment in companies in Asia, excluding Japan, with faster earnings growth and reasonable valuation levels relative to market/sector averages. (Created May 2014, inception May 31, 2014.)

First \$50 million	70 basis points
Next \$50 million	65 basis points
Above \$100 million	62.5 basis points on all assets *
Above \$200 million	50 basis points on all assets *
Minimum separate account size	\$50 million

* A transitional credit is applied to the fee schedule as assets approach or fall below the break point.

¹Reflects deduction of highest applicable fee schedule without benefit of breakpoints. Investment return and principal value will vary. Past performance is not a reliable indicator of future performance. Monthly composite performance is available upon request. **See below for further information related to net of fee calculations.**

²May 31, 2014 through December 31, 2014.

³Effective July 1, 2018, the benchmark for the composite changed from gross to net of withholding taxes. The change was made because the firm viewed the new benchmark to be more consistent with the tax impacts of the portfolios in the composite. Historical benchmark representations have been restated.

⁴Preliminary - subject to adjustment.

T. Rowe Price (TRP) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. TRP has been independently verified for the 24-year period ended June 30, 2020 by KPMG LLP. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm wide basis. Verification does not ensure the accuracy of any specific composite presentation.

TRP is a U.S. investment management firm with various investment advisers registered with the U.S. Securities and Exchange Commission, the U.K. Financial Conduct Authority, and other regulatory bodies in various countries and holds itself out as such to potential clients for GIPS purposes. TRP further defines itself under GIPS as a discretionary investment manager providing services primarily to institutional clients with regard to various mandates, which include U.S., international, and global strategies but excluding the services of the Private Asset Management group. The minimum asset level for equity portfolios to be included in composites is \$5 million and prior to January 2002 the minimum was \$1 million. The minimum asset level for fixed income and asset allocation portfolios to be included in composites is \$10 million; prior to October 2004 the minimum was \$5 million; and prior to January 2002 the minimum was \$1 million. Valuations are computed and performance reported in U.S. dollars.

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the highest applicable management fee that would be charged based on the fee schedule contained within this material, without the benefit of breakpoints. Gross and net performance returns reflect the reinvestment of dividends and are net of nonreclaimable withholding taxes on dividends, interest income, and capital gains. Gross performance returns are used to calculate presented risk measures. Effective June 30, 2013, portfolio valuation and assets under management are calculated based on the closing price of the security in its respective market. Previously portfolios holding international securities may have been adjusted for after-market events. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Dispersion is measured by the standard deviation across asset-weighted portfolio returns represented within a composite for the full year. Dispersion is not calculated for the composites in which there are five or fewer portfolios.

Some portfolios may trade futures, options, and other potentially high-risk derivatives which generally represent less than 10% of a portfolio.

Benchmarks are taken from published sources and may have different calculation methodologies, pricing times, and foreign exchange sources from the composite.

Composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow greater than or equal to 15% of portfolio assets. The temporary removal of such an account occurs at the beginning of the measurement period in which the significant cash flow occurs and the account re-enters the composite on the last day of the current month after the cash flow. Additional information regarding the treatment of significant cash flows is available upon request.

The firm's list of composite descriptions, a list of limited distribution pooled fund descriptions, and a list of broad distribution pooled funds are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

A portfolio management change occurred effective July 1, 2021. There were no changes to the investment program or strategy related to this composite.

ADDITIONAL DISCLOSURES

Portfolio Construction: There is no guarantee that the investment will remain within the anticipated ranges of exposure.

Active Share is a holdings based measure of active management representing the percentage of a portfolio's holdings that differ from those in its benchmark. Compared to tracking error, which measures the standard deviation of the difference in a manager's returns versus the Benchmark returns, Active Share allows investors to get a clearer understanding of what a manager is doing to drive performance, rather than drawing conclusions from observed returns. The greater the difference between the asset composition of a product and its benchmark, the greater the active share is.

Unless indicated otherwise the source of all data is T. Rowe Price.

The specific securities identified and described do not represent all of the securities purchased, sold or recommended for the portfolio, and no assumptions should be made that the securities identified and discussed were or will be profitable.

Source for MSCI data: MSCI. MSCI and its affiliates and third party sources and providers (collectively, "MSCI") makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indices or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. Historical MSCI data and analysis should not be taken as an indication or guarantee of any future performance analysis, forecast or prediction. None of the MSCI data is intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such.

Unless otherwise noted, index returns are shown with gross dividends reinvested.

The information shown does not reflect any Exchange Traded Funds (ETFs) that may be held in the portfolio.

T. Rowe Price uses the current MSCI/S&P Global Industry Classification Standard (GICS) for sector and industry reporting. T. Rowe Price will adhere to all future updates to GICS for prospective reporting.

The Global Industry Classification Standard ("GICS") was developed by and is the exclusive property and a service mark of Morgan Stanley Capital International Inc, ("MSCI") and Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P") and is licensed for use by T. Rowe Price. Neither MSCI, S&P nor any third party involved in making or compiling the GICS or any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability and fitness for a particular purpose with respect to any or such standard or classification. Without limiting any or the foregoing, in no event shall MSCI, S&P, any of their affiliates or any third party involved in making or compiling the GICS or any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Diversification exhibits may not add to 100% due to exclusion or inclusion of cash.

The representative portfolio is an account in the composite we believe most closely reflects current portfolio management style for the strategy. Performance is not a consideration in the selection of the representative portfolio. The characteristics of the representative portfolio shown may differ from those of other accounts in the strategy. Please see the GIPS® Composite Report for additional information on the composite.

Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.

Risks

The following risks are materially relevant to the portfolio.

Country risk (China) - All investments in China are subject to risks similar to those for other emerging markets investments. In addition, investments that are purchased or held in connection with a QFII licence or the Stock Connect program may be subject to additional risks.

Currency risk - Changes in currency exchange rates could reduce investment gains or increase investment losses.

Emerging markets risk - Emerging markets are less established than developed markets and therefore involve higher risks.

Issuer concentration risk - To the extent that a portfolio invests a large portion of its assets in securities from a relatively small number of issuers, its performance will be more strongly affected by events affecting those issuers.

Small and mid-cap risk - Stocks of small and mid-size companies can be more volatile than stocks of larger companies.

Stock Connect risk - The portfolio may invest in certain Shanghai-listed and Shenzhen-listed securities (Stock Connect Securities) through the Shanghai-Hong Kong Stock Connect or the Shenzhen-Hong Kong Stock Connect respectively (Stock Connect). This mechanism carries higher risk.

General Portfolio Risks

Capital risk - The value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the portfolio and the currency in which you subscribed, if different. **Equity risk** - In general, equities involve higher risks than bonds or money market instruments. **ESG and Sustainability risk** - May result in a material negative impact on the value of an investment and performance of the portfolio. **Geographic concentration risk** - To the extent that a portfolio invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by events within that area. **Hedging risk** - A portfolio's attempts to reduce or eliminate certain risks through hedging may not work as intended. **Investment portfolio risk** - Investing in portfolios involves certain risks an investor would not face if investing in markets directly. **Management risk** - The investment manager or its designees may at times find their obligations to a portfolio to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably). **Operational risk** - Operational failures could lead to disruptions of portfolio operations or financial losses.
