

STRATEGY HIGHLIGHTS

As of 30 June 2020

## US Large-Cap Core Growth Equity Strategy

**Total Large-Cap Growth Assets:** \$235.4 billion<sup>2</sup> | **Total Strategy Assets:**<sup>1</sup> \$102.8 billion<sup>2</sup>

Figures shown in U.S. Dollars

### INVESTMENT APPROACH

- Identify high-quality companies with leading market positions in fertile growth fields.
- Integrate fundamental research — emphasize sustainable growth, not momentum growth.
- Focus on high-quality earnings, strong free cash flow growth, shareholder-oriented management, and rational competitive environments.
- Avoid overpaying for growth, while broadly diversifying portfolios, to manage portfolio risk.

### PORTFOLIO CONSTRUCTION

- Typically 100-140 stock portfolio
- Individual position sizes are typical +/-3% relative to S&P 500 Index and +/-5% versus the Russell 1000 Growth Index weightings.
- Sector weights range from 0.5X to 3.0X for primary S&P Index sectors and Russell 1000 Growth Index sectors.
- Primary benchmark is S&P 500 Index. Secondary benchmark is Russell 1000 Growth Index.

### BENCHMARK

- S&P 500 Index
- Russell 1000 Growth Index

### PORTFOLIO MANAGEMENT

#### Larry Puglia, CFA®, CPA®

- 30 years of investment experience; 29 years with T. Rowe Price.
- M.B.A., University of Virginia, Darden School of Business
- B.B.A., University of Notre Dame

#### David Rowlett, CFA®

- 16 years of investment experience; 11 years with T. Rowe Price.
- M.B.A., University of North Carolina, Kenan-Flagler Business School
- B.B.A., University of Georgia

#### Joseph Fath, CPA®

- 19 years of investment experience; 18 years with T. Rowe Price.
- M.B.A., University of Pennsylvania, The Wharton School
- B.S., University of Illinois

#### Taymour Tamaddon, CFA®

- 17 years of investment experience; 16 years with T. Rowe Price.
- M.B.A., Dartmouth College, Tuck School of Business
- B.S., Cornell University

### PORTFOLIO SPECIALISTS

#### Craig Watson, CPA®

- 24 years of investment experience; 12 years with T. Rowe Price.
- M.B.A., University of Pennsylvania, The Wharton School
- B.S., Hampton University

#### Ronald Taylor

- 31 years of investment experience; 16 years with T. Rowe Price.
- M.B.A., Harvard Business School
- B.A., University of California, Los Angeles

Portfolio Specialists do not assume management responsibilities.

CFA® and Chartered Financial Analyst® are registered trademarks owned by CFA Institute.

<sup>1</sup> Includes U.S.-registered mutual funds, a variable annuity portfolio, a sub-fund of a Luxembourg domiciled SICAV, canadian pension pooled funds, a common trust funds, separate accounts, subadvised portfolios, and a college savings portfolio.

<sup>2</sup> Assets reported are as of 31 March 2020.

**PERFORMANCE**

	Three Months	Year-to-Date	One Year	Annualized			
				Three Years	Five Years	Ten Years	Fifteen Years
US Large-Cap Core Growth Equity Composite (Gross)	28.00%	11.33%	20.13%	19.76%	16.97%	19.03%	12.61%
US Large-Cap Core Growth Equity Composite (Net)	27.86	11.06	19.54	19.17	16.39	18.44	12.05
S&P 500 Index	20.54	-3.08	7.51	10.73	10.73	13.99	8.83
Value Added (Gross)	7.46	14.41	12.62	9.03	6.24	5.04	3.78
Value Added (Net)	7.32	14.14	12.03	8.44	5.66	4.45	3.22
Russell 1000 Growth Index	27.84	9.81	23.28	18.99	15.89	17.23	11.32
Value Added (Gross)	0.16	1.52	-3.15	0.77	1.08	1.80	1.29
Value Added (Net)	0.02	1.25	-3.74	0.18	0.50	1.21	0.73

**Past performance is not a reliable indicator of future performance.**

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the highest applicable management fee that would be charged based on the fee schedule contained within this material, without the benefit of breakpoints. Gross and net performance returns reflect the reinvestment of dividends and are net of all non-reclaimable withholding taxes on dividends, interest income, and capital gains.

Effective 1 March 2020, the benchmark for the composite changed from gross- to net- of withholding taxes. The change was made because the firm viewed the new benchmark to be more consistent with the tax impacts of the portfolios in the composite. Historical benchmark representations have been restated to show net of withholding taxes.

For Sourcing Information, please see Additional Disclosures.

**RISK/RETURN CHARACTERISTICS**

Five Years ended 30 June 2020

**Past performance is not a reliable indicator of future performance.** Statistics based on monthly gross returns. Returns would have been lower as the result of the deduction of applicable fees.

**FEE SCHEDULE****US Large-Cap Core Growth Equity Composite**

The US Large-Cap Core Growth Equity Composite seeks long-term capital appreciation primarily through investment in common stocks of well established large- and medium-cap blue chip companies with potential for above-average earnings growth. Current income is a secondary objective for this strategy. (Created June 2006)

First \$50 million	50 basis points
Next \$50 million	45 basis points
Above \$100 million	40 basis points on all assets *
Above \$200 million	35 basis points on all assets *
Minimum separate account size	\$50 million

\* A transitional credit is applied to the fee schedule as assets approach or fall below the break point.

<sup>1</sup>Reflects deduction of highest applicable fee schedule without benefit of breakpoints. Investment return and principal value will vary. Past performance is not a reliable indicator of future performance. Monthly composite performance is available upon request. **See below for further information related to net of fee calculations.**

<sup>2</sup>Primary benchmark is S&P 500 Index and secondary benchmarks are Russell 1000 Growth Index and Lipper Large-Cap Growth Funds Index.

<sup>3</sup>Preliminary - subject to adjustment.

T. Rowe Price (TRP) has prepared and presented this report in compliance with the Global Investment Performance Standards (GIPS®). TRP has been independently verified for the 23-year period ended June 30, 2019 by KPMG LLP. The verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. TRP is a U.S. investment management firm with various investment advisers registered with the U.S. Securities and Exchange Commission, the U.K. Financial Conduct Authority, and other regulatory bodies in various countries and holds itself out as such to potential clients for GIPS purposes. TRP further defines itself under GIPS as a discretionary investment manager providing services primarily to institutional clients with regard to various mandates, which include U.S., international, and global strategies but excluding the services of the Private Asset Management group. The minimum asset level for equity portfolios to be included in composites is \$5 million and prior to January 2002 the minimum was \$1 million. The minimum asset level for fixed income and asset allocation portfolios to be included in composites is \$10 million; prior to October 2004 the minimum was \$5 million; and prior to January 2002 the minimum was \$1 million. Valuations are computed and performance reported in U.S. dollars.

Gross performance returns are presented before management and all other fees, where applicable, but after trading expenses. Net of fees performance reflects the deduction of the highest applicable management fee that would be charged based on the fee schedule contained within this material, without the benefit of breakpoints. Gross and net performance returns reflect the reinvestment of dividends and are net of nonreclaimable withholding taxes on dividends, interest income, and capital gains. Effective June 30, 2013, portfolio valuation and assets under management are calculated based on the closing price of the security in its respective market. Previously portfolios holding international securities may have been adjusted for after-market events. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Dispersion is measured by the standard deviation across asset-weighted portfolio returns represented within a composite for the full year. Dispersion is not calculated for the composites in which there are five or fewer portfolios.

Some portfolios may trade futures, options, and other potentially high-risk derivatives which generally represent less than 10% of a portfolio.

Benchmarks are taken from published sources and may have different calculation methodologies, pricing times, and foreign exchange sources from the composite.

Composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow greater than or equal to 25% of portfolio assets. The temporary removal of such an account occurs at the beginning of the measurement period in which the significant cash flow occurs and the account re-enters the composite on the last day of the current month after the cash flow. Additional information regarding the treatment of significant cash flows is available upon request.

The firm's list of composite descriptions and/or a presentation that adheres to the GIPS® standards are available upon request.

## ADDITIONAL DISCLOSURES

Portfolio Construction: There is no guarantee that the investment will remain within the anticipated ranges of exposure.

Active Share is a holdings based measure of active management representing the percentage of a portfolio's holdings that differ from those in its benchmark. Compared to tracking error, which measures the standard deviation of the difference in a manager's returns versus the Benchmark returns, Active Share allows investors to get a clearer understanding of what a manager is doing to drive performance, rather than drawing conclusions from observed returns. The greater the difference between the asset composition of a product and its benchmark, the greater the active share is.

Unless indicated otherwise the source of all data is T. Rowe Price.

The specific securities identified and described do not represent all of the securities purchased or sold for this Composite. This information is not intended to be a recommendation to take any particular investment action and is subject to change. No assumption should be made that the securities identified and discussed were or will be profitable.

Russell Investment Group is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group.

Source for S&P data: S&P, "Standard & Poor's®", "S&P®", "S&P 500®", "Standard & Poor's 500", and "500" are trademarks of Standard & Poor's, and have been licensed for use by T. Rowe Price. The composite is not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's makes no representation regarding the advisability of investing in the composite.

Unless otherwise noted, index returns are shown with gross dividends reinvested.

The information shown does not reflect any Exchange Traded Funds (ETFs) that may be held in the portfolio.

Source for Sector Diversification: T. Rowe Price uses the current MSCI/S&P Global Industry Classification Standard (GICS) for sector and industry reporting. T. Rowe Price will adhere to all future updates to GICS for prospective reporting.

Diversification exhibits may not add to 100% due to exclusion or inclusion of cash.

The representative portfolio is an account in the composite we believe most closely reflects current portfolio management style for the strategy. Performance is not a consideration in the selection of the representative portfolio. The characteristics of the representative portfolio shown may differ from those of other accounts in the strategy. Please see the GIPS Disclosure page for additional information on the composite.

Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.

## Risks

The following risks are materially relevant to the portfolio.

**Style risk** - Different investment styles typically go in and out of favour depending on market conditions and investor sentiment.

### General Portfolio Risks

**Capital risk** - The value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the portfolio and the currency in which you subscribed, if different. **Equity risk** - In general, equities involve higher risks than bonds or money market instruments. **Geographic concentration risk** - To the extent that a portfolio invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by events within that area. **Hedging risk** - A portfolio's attempts to reduce or eliminate certain risks through hedging may not work as intended. **Investment portfolio risk** - Investing in portfolios involves certain risks an investor would not face if investing in markets directly. **Management risk** - The investment manager or its designees may at times find their obligations to a portfolio to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably). **Operational risk** - Operational failures could lead to disruptions of portfolio operations or financial losses.
