PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

The fund is only suitable for investors who plan to invest for the medium to long term. The fund may appeal to investors who:

- are interested in a combination of income and capital appreciation;
- are looking to diversify their investments, in particular existing investments in developed markets; and
- understand the risks and can accept the volatility associated with investing in emerging markets as well as the risks of using derivatives.

Further Information

Refer to paragraph 3 of the Singapore Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of T. Rowe Price Funds SICAV, an open-ended investment company incorporated in Luxembourg which qualifies as a UCITS under the 2010 Law.
- Objective: To maximise total return through income generation and capital appreciation, consistent with prudent investment management.
- With distributing shares, any dividends will be declared at least annually. When a dividend is declared, the NAV of the relevant class is reduced by the amount of the dividend. Share classes with an ‘x’ suffix may distribute income, capital gains and capital. Any charges or dividend distributions paid from capital can result in capital erosion and constrain capital growth.

Refer to paragraphs 1 and 3 of the Singapore Prospectus for further information on features of the product.

Investment Strategy

- The fund is actively managed and invests mainly in a diversified portfolio of transferable U.S. dollar denominated fixed income securities of issuers domiciled, or exercising the predominant part of their economic activity, in Asian countries including emerging markets, excluding Japan.
- Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund’s commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment

Refer to paragraph 3 of the Singapore Prospectus for further information on the investment strategy of the product.

<p>exposure and active ownership.</p> <ul style="list-style-type: none"> • The fund invests primarily in (i) debt securities issued by companies that are either incorporated in Asia ex-Japan, or conduct most of their business in such countries, (ii) debt securities of sovereign and (iii) official (quasi-sovereign) institutions in Asia ex-Japan. Generally, debt securities held in the portfolio, as rated by Standard & Poor's or equivalent, are expected to produce an average credit rating within the range of A to BB credit rating categories. In accordance with its own internal rating system, the investment manager will ensure that the unrated corporate debt securities in which the fund invests are of the same quality as the rated securities of the same type. Portfolio debt securities can include fixed and floating rate bonds, warrants and other transferable debt securities of any type, including high yield securities. The fund may invest up to 10% in convertible bonds and contingent convertible bonds and to a limited extent in distressed and/or defaulted bonds. • The fund normally limits exposure to corporate issuers to 5% of its net asset value. Non-U.S. dollar currency exposure is limited to 10% of the fund's net asset value. • The fund may use derivatives for hedging, EPM and investment purposes. The fund may also use derivatives to create synthetic short positions in currencies, debt securities, credit indices and equities. • The investment manager's approach is based on proprietary fundamental research and relative value analysis. The investment manager seeks to add value primarily through security selection and sector allocation. The investment process places a strong emphasis on risk management practices and portfolio diversification to manage the overall risk profile. The investment manager also assesses ESG factors with particular focus on those considered most likely to have a material impact on the performance of the holdings or potential holdings in the fund's portfolio. • Benchmark (set out in the Singapore Prospectus) use: <ul style="list-style-type: none"> ○ performance comparison. ○ reference portfolio for risk management method (relative VaR). ○ The investment manager is not constrained by any country, sector and/or individual security weightings relative to the benchmark index and has complete freedom to invest in securities that do not form part of the benchmark. 	
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • Management company: T. Rowe Price (Luxembourg) Management S.à r.l. • Investment manager: T. Rowe Price International Ltd • Sub-investment manager: T. Rowe Price Hong Kong Limited • Depositary: JP Morgan SE, Luxembourg Branch 	<p>Refer to paragraph 2 of the Singapore Prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its dividends may rise or fall. These risk factors may cause you to lose some or all of your investment. You should be aware that the fund may be exposed to other risks not named here, and the risk descriptions are not exhaustive.</p>	<p>Refer to paragraphs 3 and 5 of the Singapore Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to the China Interbank Bond Market. The China Interbank Bond Market may subject the fund to additional liquidity, volatility, regulatory, settlement procedure and counterparty risks. The fund may incur significant trading and realisation costs. • You are exposed to country risk – China. Investments that are transacted via the China Interbank Bond Market or the Stock Connect program, or held in connection with a QFII licence, may be subject to additional risks, 	

<p>including:</p> <ul style="list-style-type: none"> ○ QFII Licence. As Chinese regulators require that the name of the QFII licence holder be used in connection with assets held on behalf of the fund, should creditors of the QFII assert that the assets in the accounts are owned by the QFII and not the relevant fund, and if a court should uphold this assertion, creditors of the QFII could seek payment from the assets of the fund. ○ Onshore and offshore renminbi. The exchange rate between the CNY and CNH, and the extent to which currency exchanges involving CNH are allowed, are managed by the government, based on a combination of market and policy considerations. This effectively creates currency risk within a single nation's currency, as well as liquidity risk, since the conversion of CNY to CNH, and of CNH to other currencies, can be restricted, as can the removal of any currency from China or Hong Kong. ○ STAR Board. The fund may invest in shares listed on the STAR Board on the Shanghai Stock Exchange. • You are exposed to credit risk. A bond or money market security could lose value if the issuer's financial health deteriorates. • You are exposed to default risk. Default risk may occur if the issuers of certain bonds become unable or unwilling to make payments on their bonds. • You are exposed to emerging markets risk. Emerging markets are less established than developed markets and therefore involve higher risks. • You are exposed to geographic concentration risk. To the extent that the fund invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by any social, political, economic, environmental or market conditions within that area. This can mean higher volatility and risk of loss as compared to a fund that invests more broadly. • You are exposed to interest rate risk. When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality. • You are exposed to market risk. Prices of many securities change daily and can fall based on a wide variety of factors. 			
Liquidity Risks			
<p>The fund is not listed and you can redeem only on Singapore business days which are also Luxembourg business days.</p> <ul style="list-style-type: none"> • Redemptions could be subject to delays and other redemption policies set by the fund. • Any security could become hard to value or to sell at a desired time and price. 			
Product-Specific Risks			
<ul style="list-style-type: none"> • You are exposed to derivatives risk. Certain derivatives could behave unexpectedly or could expose the fund to losses that are significantly greater than the cost of the derivative, in other words, they provide leverage. • You are exposed to high yield bond risk. A bond or debt security rated 'below investment grade', is generally subject to higher yields but to greater risks too. The higher yield is offered to compensate for the reduced creditworthiness and the increased risk of default of the issuer to meet its payments obligations of income and principal. High yield bonds are usually more sensitive to market conditions and fluctuations. Their market is typically thinner and less active, creating a higher liquidity risk than for higher-rated bonds. This implies they may become hard to value or to sell at a desired price and/or time. 			
FEES AND EXPENSES			
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p>			
<p><u>Payable directly by you</u></p>			
<ul style="list-style-type: none"> • You will need to pay the following fees and charges as a percentage of your gross investment sum: 			
<table border="1"> <tr> <td>Entry charge</td> <td>Up to 5%</td> </tr> </table>	Entry charge	Up to 5%	
Entry charge	Up to 5%		
	<p>Refer to paragraph 4 of the Singapore Prospectus for further information on fees and</p>		

Redemption fee	None	charges.
Switching fee	None	
<ul style="list-style-type: none">You should check with your Singapore Distributor if it imposes any other fees and charges not included in the Singapore Prospectus.		
Payable by the fund from invested proceeds (per annum)		
Management company fee (a) retained by the management company (b) paid by the management company to the financial adviser (trailer fee)	Up to 0.65% (a) Minimum of 35% of the management company fee (b) Maximum of 65% ² of the management company fee	
Operating and administrative expenses limit	0.17%	
Additionally, the fund bears transaction fees and expenses associated with buying and selling fund assets, including brokerage, interest, taxes, governmental duties, charges and levies.		
VALUATIONS AND EXITING FROM THIS INVESTMENT		
HOW OFTEN ARE VALUATIONS AVAILABLE? The NAV for each share class of the fund is calculated every day that is a Luxembourg business day for the fund. To mitigate the negative impact of dilution and protect shareholders' interests, dilution adjustments (swing pricing) may be applied during valuation. The NAV is normally available on www.troweprice.com and www.fundinfo.com within the next Singapore business day following the relevant day on which such NAV is calculated.		Refer to paragraphs 7 and 8 of the Singapore Prospectus for further information on valuation and exiting from the product.
HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO? <ul style="list-style-type: none">You can redeem your shares by submitting a redemption request to your Singapore Distributor.There is no cancellation period for subscription but you may check with your Singapore Distributor if it offers one without incurring the entry charge.When you redeem shares, payment will normally be sent out (in the reference currency of the share class) within three Luxembourg business days after the Luxembourg business day on which the transaction was processed. However, your receipt may be affected by currency settlement holidays, Singapore business days and your Singapore Distributor's requirements.Your redemption price is determined as follows:<ul style="list-style-type: none">Orders that have been received and accepted by the transfer agent by 13:00 Luxembourg time on a Luxembourg business day will be processed at the price calculated on that day.Those received and accepted after that time will be processed at the next Luxembourg business day.Your Singapore Distributor may impose earlier dealing deadlines and may accept requests only on Singapore business days.The net redemption proceeds that you will receive will be the NAV multiplied by the number of shares redeemed. An example is as follows:<div><div>1,000.00 Number of shares being redeemed</div><div>x</div><div>USD1.00 NAV</div><div>=</div><div>USD1,000.00 Net redemption proceeds</div></div>		
CONTACT INFORMATION		
HOW DO YOU CONTACT US? You may contact the Singapore Representative, T. Rowe Price Singapore Private Ltd. at +65 6395 4040		

² Your financial adviser is required to disclose to you the amount of trailer fee it receives from the management company.
