### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The fund is only suitable for investors who plan to invest for the medium to long term. The fund may appeal to investors who:

- are interested in investment growth;
- are looking to diversify their equity investments, in particular existing investments in developed markets; and
- understand and can accept the risks of the fund, including the risks of investing in emerging markets.

#### Further Information

Refer to paragraph 3 of the Singapore Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of T. Rowe Price Funds SICAV, an open-ended investment company incorporated in Luxembourg which qualifies as a UCITS under the 2010 Law.
- Objective: To increase the value of its shares, over the long term, through growth in the value of its investments.

Refer to paragraphs 1 and 3 of the Singapore Prospectus for further information on features of the product.

### Investment Strategy

- The fund is actively managed and invests mainly in a diversified portfolio of shares of companies in Asia.
- Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership.
- The fund invests primarily in equity and equity-related securities issued by companies that are either incorporated in any Asian country or conduct most of their business in such countries. Types of securities may include common shares, preferred shares, warrants, American Depositary Receipts, European Depositary Receipts and Global Depositary Receipts.

Refer to paragraph 3 of the Singapore Prospectus for further information on the investment strategy of the product.

<b>KEY RISKS</b>	
<b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b> <b>The value of the product and its dividends may rise or fall. These risk factors may cause you to lose some or all of your investment. You should be aware that the fund may be exposed to other risks not named here, and the risk descriptions are not exhaustive.</b>	Refer to paragraphs 3 and 5 of the Singapore Prospectus for further information on risks of the product.
<b>Market and Credit Risks</b>	
<ul style="list-style-type: none"> <li>• <b>You are exposed to country risk – China.</b> Investments that are transacted via the China Interbank Bond Market or the Stock Connect program, or held in connection with a QFII licence, may be subject to additional risks, including: <ul style="list-style-type: none"> <li>○ <b>QFII Licence.</b> As Chinese regulators require that the name of the QFII licence holder be used in connection with assets held on behalf of the fund, should creditors of the QFII assert that the assets in the accounts are owned by the QFII and not the relevant fund, and if a court should uphold this assertion, creditors of the QFII could seek payment from the assets of the fund.</li> <li>○ <b>Onshore and offshore renminbi.</b> The exchange rate between the CNY and CNH, and the extent to which currency exchanges involving CNH are allowed, are managed by the government, based on a combination of market and policy considerations. This effectively creates currency risk within a single nation's currency, as well as liquidity risk, since the conversion of CNY to CNH, and of CNH to other currencies, can be restricted, as can the removal of any currency from China or Hong Kong.</li> <li>○ <b>STAR Board.</b> The fund may invest in shares listed on the STAR Board on the Shanghai Stock Exchange.</li> </ul> </li> <li>• <b>You are exposed to currency risk.</b> Changes in currency exchange rates</li> </ul>	

<p>could reduce investment gains or increase investment losses. Exchange rates can change rapidly and unpredictably.</p> <ul style="list-style-type: none"> <li>• <b>You are exposed to emerging markets risk.</b> Emerging markets are less established than developed markets and therefore involve higher risks.</li> <li>• <b>You are exposed to equity risk.</b> Equities involve higher risks than bonds or money market instruments. Equities can lose value rapidly and can remain at low prices indefinitely. Equities of rapidly growing companies can be highly sensitive to bad news, because much of their value is based on high expectations for the future. Equities of companies that appear to be priced below their true value may continue to be undervalued. If a company goes through bankruptcy or a similar financial restructuring, its equities may lose most or all of their value.</li> <li>• <b>You are exposed to geographic concentration risk.</b> To the extent that the fund invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by any social, political, economic, environmental or market conditions within that area. This can mean higher volatility and risk of loss as compared to a fund that invests more broadly.</li> <li>• <b>You are exposed to issuer concentration risk.</b> To the extent that the fund invests a large portion of its assets in securities from a relatively small number of issuers, its performance will be more strongly affected by any business, industry, economic, financial or market conditions affecting those issuers. This can mean higher volatility and risk of loss as compared to a fund that invests more broadly.</li> <li>• <b>You are exposed to market risk.</b> Prices of many securities change daily and can fall based on a wide variety of factors.</li> </ul>									
<b>Liquidity Risks</b>									
<p><b>The fund is not listed and you can redeem only on Singapore business days which are also Luxembourg business days.</b></p> <ul style="list-style-type: none"> <li>• Redemptions could be subject to delays and other redemption policies set by the fund.</li> <li>• Any security could become hard to value or to sell at a desired time and price.</li> </ul>									
<b>Product-Specific Risks</b>									
<ul style="list-style-type: none"> <li>• <b>The net asset value of the fund is likely to have a high volatility due to its investment policies or portfolio management techniques.</b></li> <li>• <b>You are exposed to small and mid-cap risk.</b> Shares of small and mid-size companies can be more volatile than shares of larger companies. Small and mid-size companies often have fewer financial resources, shorter operating histories, and less diverse business lines, and as a result can be at greater risk of long-term or permanent business setbacks. Initial public offerings can be highly volatile and can be hard to evaluate because of a lack of trading history and relative lack of public information.</li> </ul>									
<b>FEES AND EXPENSES</b>									
<p><b>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</b></p> <p><u>Payable directly by you</u></p> <ul style="list-style-type: none"> <li>• You will need to pay the following fees and charges as a percentage of your gross investment sum:</li> </ul> <table border="1" data-bbox="231 1691 1141 1803"> <tr> <td>Entry charge</td><td>Up to 5%</td></tr> <tr> <td>Redemption fee</td><td>None</td></tr> <tr> <td>Switching fee</td><td>None</td></tr> </table> <ul style="list-style-type: none"> <li>• You should check with your Singapore Distributor if it imposes any other fees and charges not included in the Singapore Prospectus.</li> </ul> <p><u>Payable by the fund from invested proceeds (per annum)</u></p> <table border="1" data-bbox="231 1915 1141 2016"> <tr> <td>Management company fee (a) retained by the management company</td><td>Up to 1.60% (a) Minimum of 35% of the management</td></tr> </table>	Entry charge	Up to 5%	Redemption fee	None	Switching fee	None	Management company fee (a) retained by the management company	Up to 1.60% (a) Minimum of 35% of the management	<p>Refer to paragraph 4 of the Singapore Prospectus for further information on fees and charges.</p>

<b>VALUATIONS AND EXITING FROM THIS INVESTMENT</b>		
<p><b>HOW OFTEN ARE VALUATIONS AVAILABLE?</b></p> <p>The NAV for each share class of the fund is calculated every day that is a Luxembourg business day for the fund. To mitigate the negative impact of dilution and protect shareholders' interests, dilution adjustments (swing pricing) may be applied during valuation. The NAV is normally available on <a href="http://www.troweprice.com">www.troweprice.com</a> and <a href="http://www.fundinfo.com">www.fundinfo.com</a> within the next Singapore business day following the relevant day on which such NAV is calculated.</p> <p><b>HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?</b></p> <ul style="list-style-type: none"> <li>• You can redeem your shares by submitting a redemption request to your Singapore Distributor.</li> <li>• There is no cancellation period for subscription but you may check with your Singapore Distributor if it offers one without incurring the entry charge.</li> <li>• When you redeem shares, payment will normally be sent out (in the reference currency of the share class) within three Luxembourg business days after the Luxembourg business day on which the transaction was processed. However, your receipt may be affected by currency settlement holidays, Singapore business days and your Singapore Distributor's requirements.</li> <li>• Your redemption price is determined as follows: <ul style="list-style-type: none"> <li>o Orders that have been received and accepted by the transfer agent by 13:00 Luxembourg time on a Luxembourg business day will be processed at the price calculated on that day.</li> <li>o Those received and accepted after that time will be processed at the next Luxembourg business day.</li> <li>o Your Singapore Distributor may impose earlier dealing deadlines and may accept requests only on Singapore business days.</li> </ul> </li> <li>• The net redemption proceeds that you will receive will be the NAV multiplied by the number of shares redeemed. An example is as follows: <div style="display: flex; align-items: center; justify-content: center;"> <div style="text-align: right; margin-right: 10px;">1,000.00 Number of shares being redeemed</div> <div style="text-align: center; margin-right: 10px;">x NAV</div> <div style="text-align: center; margin-right: 10px;">=</div> <div style="text-align: left;"> <div style="text-align: right; margin-right: 10px;">USD1.00 NAV</div> <div style="text-align: right;">USD1,000.00 Net redemption proceeds</div> </div> </div> </li> </ul>		Refer to paragraphs 7 and 8 of the Singapore Prospectus for further information on valuation and exiting from the product.
