Investment Objective & Strategy

The fund seeks high current income exempt from federal income taxes.

The fund has no limitations on maturities for individual securities or duration for the portfolio. However, under normal conditions, the fund's weighted average effective maturity will exceed ten years. The fund typically invests in investment-grade securities, which are securities rated in one of the four highest rating categories as determined by at least one credit rating agency or, if unrated, deemed by the adviser to be of comparable quality. However, the fund may invest up to 25% of its net assets in securities that are rated below investment-grade by a credit rating agency or, if unrated, deemed by the adviser to be below investment-grade. Such holdings are commonly referred to as "junk bonds." The fund may invest in bonds whose income is subject to the calculation of the alternative minimum tax.

Calendar Year Returns (%) (total return)

Past performance is not a guarantee or a reliable indicator of future results; current performance may be higher or lower than performance quoted. Investment returns and principal value will fluctuate and shares, when sold, may be worth more or less than their original cost. To obtain the most recent month-end performance, visit troweprice.com. Market returns are based on the midpoint of the bid/ask spread as of 4p.m. ET and do not represent returns an investor would receive if shares were traded at other times.

The Fund's total return figures reflect the reinvestment of dividends and capital gains, if any.

Risks: Interest rates: A rise in interest rates typically causes the price of a fixed rate debt instrument to fall and its yield to rise. Conversely, a decline in interest rates typically causes the price of a fixed rate debt instrument to rise and the yield to fall. **Municipal securities:** The fund may be highly impacted by events tied to the overall municipal securities markets, which can be very volatile and significantly affected by unfavorable legislative or political developments and adverse changes in the financial conditions of municipal securities issuers and the global, national, and/or local economies. **Taxes:** Some income may be subject to the federal alternative minimum tax. Capital gains, if any, are generally taxable. See the prospectus for more detail on the fund's principal risks.

Additional Disclosures & Definitions

Consider the investment objectives, risks, and charges and expenses carefully before investing. For a prospectus or, if available, a summary prospectus containing this and other information, call 1-855-405-6488 or visit [troweprice.com](https://www.troweprice.com). Read it carefully.

ETFs are bought and sold at market prices, not NAV. Investors generally incur the cost of the spread between the prices at which shares are bought and sold. Buying and selling shares may result in brokerage commissions which will reduce returns.

Fund Assets, holdings-based analytics (excluding portfolio turnover), and portfolio attribution are calculated using T. Rowe Price's internal Investment Book of Records (IBOR). Due to timing and accounting methodology differences, IBOR data may differ from the Accounting Book of Records (ABOR) data provided by the Fund's accountant. T. Rowe Price uses a custom structure for sector and industry reporting for this product. Diversification exhibits may not add to 100% due to exclusion or inclusion of cash. Credit ratings for the securities held in the Fund are provided by Moody's, Standard & Poor's and Fitch and are converted to the Standard & Poor's nomenclature. A rating of "AAA" represents the highest-rated securities, and a rating of "D" represents the lowest-rated securities. If the rating agencies differ, the highest rating is applied to the security. If a rating is not available, the security is classified as Not Rated (NR). T. Rowe Price uses the rating of the underlying investment vehicle to determine the creditworthiness of credit default swaps and sovereign securities. The Fund is not rated by any agency. U.S. Government Agency securities, if any, may include conventional pass-through securities and collateralized mortgage obligations. This category may include rated and unrated securities.

"Other" includes any categories not explicitly mentioned. Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.
