## Investment Objective & Strategy

The fund seeks total return through a combination of income and capital appreciation. Invest primarily in fixed income and other debt instruments, including corporate bonds, bank loans, and government bonds. In keeping with the fund's objectives, remaining assets are generally invested in the common stocks of higher-quality, established U.S. companies.

**Past performance is not a guarantee or a reliable indicator of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit [troweprice.com](https://www.troweprice.com).**

The Fund's total return figures reflect the reinvestment of dividends and capital gains, if any.

<sup>(4)</sup>Custom Benchmark: 60% Bloomberg U.S. Aggregate Bond Index and 40% S&P500 Index.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

**Risks: Stock investing:** Stocks generally fluctuate in value more than bonds and may decline significantly over short time periods. There is a chance that stock prices overall will decline because stock markets tend to move in cycles, with periods of rising and falling prices. **Junk investing:** Investments in bonds that are rated below investment grade, commonly referred to as junk bonds, and loans that are rated below investment grade, expose the fund to greater volatility and credit risk than investments in securities that are rated investment grade. See the prospectus for more detail on the fund's principal risks.
