|-----------------------------|-------------|
| Overall Morningstar Rating™ | ★           |
| Morningstar Category™       | Japan Stock |

Rated against 36 Japan Stock funds, as of 3/31/2026, based on risk-adjusted total return. Ratings are determined monthly and subject to change. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics. **Past performance is not a guarantee or a reliable indicator of future results.**

## Investment Objective & Strategy

The fund seeks long-term growth of capital through investments in common stocks of companies located (or with primary operations) in Japan. Focus on companies capable of achieving and sustaining above-average, long-term earnings growth and cash flow over the economic cycle. Favor companies with leading market position, technological leadership or proprietary advantage, and seasoned management. The fund is constructed from the "bottom-up" to include the most compelling businesses.

The Fund's total return figures reflect the reinvestment of dividends and capital gains, if any.

The T. Rowe Price Fund shares the portfolio of an existing fund (the original share class of the fund is referred to as the "investor class"). The total return figures for this I Class have been calculated using the performance data of the Investor Class (incepted 12/30/91) up to the inception date of the I Class (3/6/17) and the actual performance results of the I Class since that date. Because the I Classes are expected to have lower expenses than the Investor Classes, the I Class performance, had it existed over the periods shown, would have been higher.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

**Risks: Investing in Japan:** The Japanese economy has at times been negatively affected by government intervention and protectionism, excessive regulation, an unstable financial services sector, a heavy reliance on international trade, and natural disasters. Some of these factors, as well as a low economic growth rate relative to other advanced economies, other adverse political developments, increases in government debt, and changes in fiscal, monetary, or trade policies, may affect the Japanese economy. **Geographic concentration:** Because the fund focuses its investments on a particular geographic area, the fund's performance is closely tied to the social, political, and economic conditions of that area. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 1 and 1 stars among 36 and 33 Japan Stock funds for the 3- and 5-year periods (as applicable) ending 3/31/2026, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Portfolio holdings in this report are presented gross of any non-reclaimable withholding tax. Any non-reclaimable withholding tax is included in position market values. Portfolio diversification data is calculated net of any non-reclaimable withholding tax. Any non-reclaimable tax withheld is not reflected in category market values.

Fund Assets, holdings-based analytics (excluding portfolio turnover), and portfolio attribution are calculated using T. Rowe Price's internal Investment Book of Records (IBOR). Due to timing and accounting methodology differences, IBOR data may differ from the Accounting Book of Records (ABOR) data provided by the Fund's accountant. Unless otherwise noted, index returns are shown with gross dividends reinvested.
