⁽²⁾Portfolio Turnover represents 1 year period ending 12/31/25.

Past performance is not a guarantee or a reliable indicator of future results.

Morningstar™

Overall Morningstar Rating™	★ ★
Morningstar Category™	Short-Term Inflation-Protected Bond

Rated against <RMAS_Morningstar_Fund_Count_Year03> Short-Term Inflation-Protected Bond funds, as of 3/31/2026, based on risk-adjusted total return. Ratings are determined monthly and subject to change. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics. **Past performance is not a guarantee or a reliable indicator of future results.**

Performance (%) (NAV, total return Performance > 1yr is Annualized)

	3m	1yr	3yrs	5yrs	10yrs	15yrs	30-Day SEC Yield	30-Day SEC Yield w/o Waiver ⁽³⁾
TRLDX	0.99	3.59	4.20	2.68	2.80	2.00	5.01	4.93
BC15T	0.83	3.90	4.63	3.25	3.03	2.27	N/A	N/A

Past performance is not a guarantee or a reliable indicator of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit troweprice.com.

The Fund's total return figures reflect the reinvestment of dividends and capital gains, if any.

The T. Rowe Price Fund shares the portfolio of an existing fund (the original share class of the fund is referred to as the "investor class"). The total return figures for this I Class have been calculated using the performance data of the Investor Class (incepted 9/29/06) up to the inception date of the I Class (9/29/15) and the actual performance results of the I Class since that date. Because the I Classes are expected to have lower expenses than the Investor Classes, the I Class performance, had it existed over the periods shown, would have been higher.

The Fund's high current yield is due to the rise in the inflation rate, which might not be repeated. Changes in the rate of inflation may cause the Fund's yield to vary substantially from one month to the next.

⁽³⁾Excludes the effect of contractual expense limitation arrangements. If the expense waiver was not in effect for the 30-Day period shown, there may not be a difference in the 30-day SEC yields shown above.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

Risks: Interest rates: A rise in interest rates typically causes the price of a fixed rate debt instrument to fall and its yield to rise. Conversely, a decline in interest rates typically causes the price of a fixed rate debt instrument to rise and the yield to fall. **Derivatives:** The use of derivatives exposes the fund to additional volatility and potential losses. A derivative involves risks different from, and possibly greater than, the risks associated with investing directly in

Investment Objective & Strategy

The fund seeks a level of income that is consistent with the current rate of inflation.

Invest in a diversified portfolio of short- and intermediate-term investment-grade inflation-linked, corporate, government, mortgage-backed, and asset-backed securities. May also invest in money market securities, bank obligations, collateralized mortgage obligations, and foreign securities.

Invest at least 80% of net assets in bonds and at least 20% of net assets in inflation-linked securities.

The fund's average effective maturity will typically range between 1-7 years.

Morningstar rated the fund 2, 2, and 2 stars among <RMS_Morningstar_Fund_Count_Year03>, <RMS_Morningstar_Fund_Count_Year05> and <RMS_Morningstar_Fund_Count_Year10> Short-Term Inflation-Protected Bond funds for the 3-, 5-, and 10-year periods (as applicable) ending 3/31/2026, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Fund Assets, holdings-based analytics (excluding portfolio turnover), and portfolio attribution are calculated using T. Rowe Price's internal Investment Book of Records (IBOR). Due to timing and accounting methodology differences, IBOR data may differ from the Accounting Book of Records (ABOR) data provided by the Fund's accountant. T. Rowe Price uses a custom structure for sector and industry reporting for this product. Diversification exhibits may not add to 100% due to exclusion or inclusion of cash. Credit ratings for the securities held in the Fund are provided by Moody's, Standard & Poor's and Fitch and are converted to the Standard & Poor's nomenclature. A rating of "AAA" represents the highest-rated securities, and a rating of "D" represents the lowest-rated securities. If the rating agencies differ, the highest rating is applied to the security. If a rating is not available, the security is classified as Not Rated (NR). T. Rowe Price uses the rating of the underlying investment vehicle to determine the creditworthiness of credit default swaps and sovereign securities. The Fund is not rated by any agency. U.S. Government Agency securities, if any, may include conventional pass-through securities and collateralized mortgage obligations. This category may include rated and unrated securities.

Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.

Unless indicated otherwise the source of all data is T. Rowe Price.
