Investment Objective & Strategy

The fund seeks long-term growth of capital.

The fund may invest in companies of any market capitalization, but will generally focus on large- and mid-cap companies.

Our integrated approach to investing combines fundamental analysis and quantitative models to help shape our process for security selection, portfolio construction, and risk management in a systematic manner.

The portfolio is generally constructed by buying higher ranked stocks and selecting stocks to sell from those that have a lower rank, subject to overall risk controls and desired portfolio characteristics.

Morningstar rated the fund 5 and 5 stars among 298 and 292 Global Large-Stock Blend funds for the 3- and 5-year periods (as applicable) ending 3/31/2026, respectively. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.
