## Investment Objective & Strategy

The fund seeks to provide long-term capital growth by investing primarily in U.S. common stocks.

The fund uses a disciplined portfolio construction process whereby it weights each sector approximately the same as the S&P 500 Index.

A team of industry-focused T. Rowe Price analysts is responsible for selecting stocks for the fund, subject to the oversight and discretion of the portfolio managers who work closely with the analysts.

The fund seeks to add value via stock selection within each industry. It maintains style and sector exposures close to those of the S&P 500.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

**Risks: Sector exposure:** Issuers in the same economic sector may be similarly affected by economic or market events, making the fund more vulnerable to unfavorable developments in that economic sector than funds that invest more broadly. **Large-cap stocks:** Securities issued by large-cap companies tend to be less volatile than securities issued by small- and mid-cap companies. However, large-cap companies may not be able to attain the high growth rates of successful small- and mid-cap companies, especially during strong economic periods, and may be unable to respond as quickly to competitive challenges. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 4, 4, and 5 stars among 1,302, 1,192 and 888 Large Blend funds for the 3-, 5-, and 10-year periods (as applicable) ending 6/30/2024, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Unless otherwise noted, index returns are shown with gross dividends reinvested. Fund Assets, holdings-based analytics (excluding portfolio turnover), and portfolio attribution are calculated using T. Rowe Price's internal Investment Book of Records (IBOR).
