INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks a combination of long-term capital appreciation and high income.

High conviction concentrated high yield portfolio based on rigorous fundamental credit research.

The fund/portfolio/strategy will normally invest at least 80% of its assets in corporate holdings and securities rated below investment-grade, including up to 50% of assets in bank loans.

Opportunistically invest in select special credit situations although core high-yield remains the majority of exposure.

BENEFITS AND RISKS

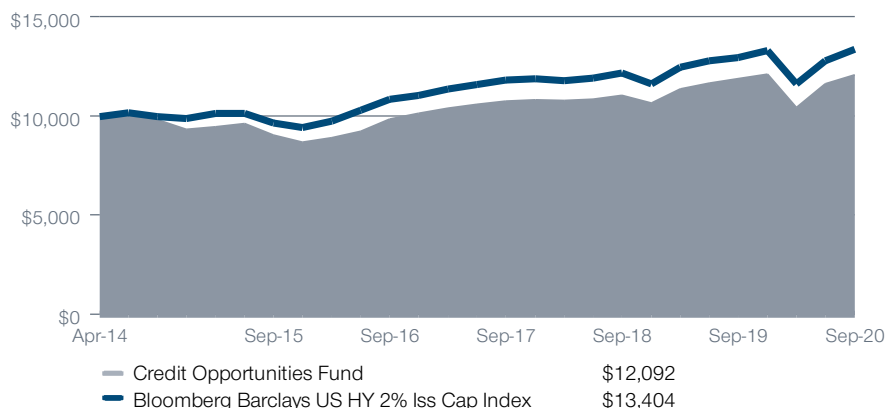

Offers high income potential and capital appreciation by primarily investing in below investment-grade corporate bonds and floating rate bank loans through a concentrated approach.

Provides investors access to the special credit situations within the high-yield opportunity set on a highly selective basis with acute emphasis on downside protection and risk-adjusted returns.

Fixed-income securities are subject to credit risk (high yield bonds carry a greater default risk than higher-rated bonds), liquidity risk, call risk, and interest-rate risk.

Diversification exhibits may not add to 100% due to exclusion or inclusion of cash.

Sources for credit quality: Moody's Investors Service and Standard & Poor's (S&P); split ratings (e.g., BB/B and B/CCC) are assigned when the Moody's and S&P ratings differ. T. Rowe Price does not evaluate these ratings, but simply assigns them to the appropriate credit quality category as determined by the rating agency. T. Rowe Price uses the rating of the underlying investment vehicle for credit default swaps. All short-term holdings, regardless of ratings, are included with the cash positions.
