INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks total return through a combination of income and capital appreciation.

Liquid credit alternative strategy within the multi-asset credit universe.

Seeks to harvest cheap or dislocated global credit risk premia while managing beta and duration volatility via hedging and shorting.

Employs flexible, cross-sector approach to source high-conviction security selection from our global multi-sector research platform.

Aims to deliver attractive returns while targeting lower beta to high yield and equities.

BENEFITS AND RISKS

Sources attractive multi-sector credit return with lower volatility.

Enables investors to benefit from our global credit expertise to gain access to tactical cross-sector allocation shifts used to harness market inefficiency.

Fixed income securities are subject to interest-rate, credit, liquidity, call, and default risks. All investments are subject to risk, including the possible loss of principal.

Derivatives may be more volatile than other types of investments and risks include currency, leverage, liquidity, index, pricing, and counterparty. Short sales are speculative transactions although are primarily used as part of overall portfolio volatility management.

International investments can be riskier than U.S. investments due to the effects of differences in market structure and liquidity, as well as specific country, regional, and economic developments.

CUMULATIVE RETURNS

Performance data quoted represents past performance and is not a reliable indicator of future performance. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit [troweprice.com](https://www.troweprice.com). The average annual total return figures reflect the reinvestment of dividends and capital gains, if any.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

^oExcludes the effect of contractual expense limitation arrangements. If the expense waiver was not in effect for the 30-Day period shown, there may not be a difference in the 30-Day SEC yields shown above.

Morningstar rated the fund 3 and 4 stars among 278 and 250 Nontraditional Bond funds for the 3- and 5-year periods (as applicable) ending 3/31/2024, respectively. The Morningstar Rating™ for funds, or “star rating”, is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

T. Rowe Price uses a custom structure for diversification reporting on this product.

Diversification exhibits may not add to 100% due to exclusion or inclusion of cash.

Credit ratings for the securities held in the Fund are provided by Moody's, Standard & Poor's and Fitch and are converted to the Standard & Poor's nomenclature.

A rating of “AAA” represents the highest-rated securities, and a rating of “D” represents the lowest-rated securities. If the rating agencies differ, the highest rating is applied to the security. If a rating is not available, the security is classified as Not Rated (NR). T. Rowe Price uses the rating of the underlying investment vehicle to determine the creditworthiness of credit default swaps and sovereign securities. The Fund is not rated by any agency. U.S. Government Agency securities may include conventional pass-through securities and collateralized mortgage obligations. This category may include rated and unrated securities.
