Investment Objective & Strategy

The fund seeks a high level of dividend income and long-term capital growth primarily through investments in stocks.

Employ a value-oriented investment approach.

Focus on companies with an above-average dividend yield—always a positive component of total return.

Utilize a thorough “bottom-up” fundamental research evaluation of each holding.

Broadly diversify sector exposure to help minimize volatility.

The average annual total return figures reflect the reinvestment of dividends and capital gains, if any.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

Risks: Dividend-paying stocks: Stocks of companies with a history of paying dividends may not participate in a broad market advance to the same degree as most other stocks, and a sharp rise in interest rates or economic downturn could cause a company to unexpectedly reduce or eliminate its dividend. **Value investing:** The intrinsic value of a stock with value characteristics may not be fully recognized by the market for a long time (or at all) or a stock judged to be undervalued may actually be appropriately priced at a low level. **Diversification:** Diversification cannot assure a profit or protect against loss in a declining market. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 3, 3, and 2 stars among 1,099, 1,035 and 809 Large Value funds for the 3-, 5-, and 10-year periods (as applicable) ending 6/30/2024, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Unless otherwise noted, index returns are shown with gross dividends reinvested.
