INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks long-term growth of capital through investments primarily in the common stocks of rapidly growing, small- to medium-sized companies outside the U.S.

The fund invests in a variety of industries in developed and emerging markets.

The fund seeks to invest in firms with quality management, strength of franchise, reasonable valuation, and strong cash flows that are at an advantageous point in the company life cycle.

BENEFITS AND RISKS

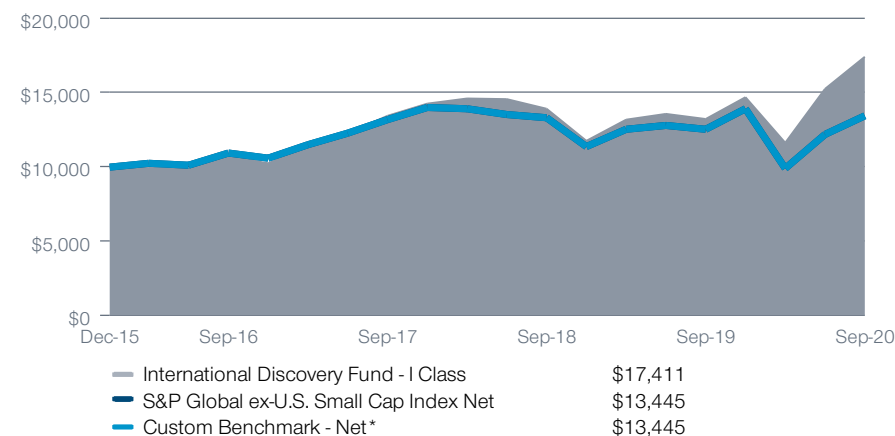

Over long periods, international investing offers diversification benefits relative to an all-U.S. portfolio.

Investing internationally involves special risks, including economic and political uncertainty and currency fluctuation.

Generally, a fund that invests in emerging markets represents higher risk and potential reward than one focusing on more mature economies and markets.

Performance data quoted represents past performance and is not a reliable indicator of future performance. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit troweprice.com. Consider the investment objectives, risks, and charges and expenses carefully before investing. For a prospectus or, if available, a summary prospectus containing this and other information, call 1-855-405-6488 or visit troweprice.com. Read it carefully. The T. Rowe Price fund shares the portfolio of an existing fund (the original share class of the fund is referred to as the "investor class"). The total return figures for this I Class have been calculated using the performance data of the Investor Class up to the inception date of the I Class (12/17/15) and the actual performance results of the I Class since that date. Because the I Classes are expected to have lower expenses than the Investor Classes, the I Class performance, had it existed over the periods shown, would have been higher. The average annual total return figures reflect the reinvestment of dividends and capital gains, if any.

* Effective June 1, 2019, the "net" version of the benchmark replaced the "gross" version of the benchmark. The "net" version of the benchmark assumes the reinvestment of dividends after the deduction of withholding taxes. Historical benchmark representations have been restated to show net of withholding taxes. Linked Performance benchmark is the S&P Developed ex-U.S. Small Cap Index Net prior to July 1, 2009 and S&P Global ex-U.S. Small Cap Index Net from July 1, 2009 to current period end. The benchmark changes were made because the portfolio manager viewed the new benchmark composition to be a better representation of the investment strategy of the fund. Historical benchmark representations have not been restated. The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details. INVEST WITH CONFIDENCE®

Definitions

Beta: A measure of market risk of an investment option that shows how responsive the investment is to a given market index, such as the Standard & Poor's 500 Index. By definition, the beta of the benchmark is 1.00. An investment with a beta of 1.10 is expected to perform 10% better than the index in up markets and 10% worse in down markets. Usually, higher betas represent riskier investments. Figures are calculated using monthly data and are net of fees.

Additional Disclosures

Morningstar rated the fund 4 stars among 115 Foreign Small/Mid Growth funds for the 3-year period (as applicable) ending 9/30/2020, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.
