BENEFITS AND RISKS

Broad investment opportunity—we seek the best risk-adjusted opportunities regardless of geographic boundaries.

The fund is broadly diversified across international markets, which can help reduce volatility relative to funds that concentrate on a particular region or country. Diversification cannot assure a profit or protect against loss in a declining market.

Since the fund is actively managed and invests overseas, its foreign holdings could be affected by declining foreign currencies or adverse political or economic events.

CUMULATIVE RETURNS

Growth of \$10,000

Performance data quoted represents past performance and is not a reliable indicator of future performance. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit [troweprice.com](https://www.troweprice.com). The average annual total return figures reflect the reinvestment of dividends and capital gains, if any.

Effective 14 February 2022, a secondary benchmark for the Fund changed to the Lipper Global Multi-Cap Value Funds Average. Prior to this change, this secondary benchmark was the Lipper Global Large-Cap Value Index.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

The fund's benchmark is MSCI World Index Net. The MSCI World Value Index Net is being shown for informational purposes.

¹ The Institutional Global Value Equity Fund changed its name to Global Value Equity Fund and designated all outstanding shares as I Class as of March 1, 2020. Performance shown prior to March 1, 2020, reflects the performance of the fund while it was structured as the T. Rowe Price Institutional Global Value Equity Fund.

MORNINGSTAR™

Overall Morningstar Rating™

Morningstar Category™

Global Large-Stock Value

Rated against 149 Global Large-Stock Value funds, as of 3/31/2024, based on risk-adjusted total return. Ratings are determined monthly and subject to change. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics. **Past performance is no guarantee of future results.**

Definitions

Beta: A measure of market risk of an investment option that shows how responsive the investment is to a given market index, such as the Standard & Poor's 500 Index. By definition, the beta of the benchmark is 1.00. An investment with a beta of 1.10 is expected to perform 10% better than the index in up markets and 10% worse in down markets. Usually, higher betas represent riskier investments. Figures are calculated using monthly data and are net of fees.

Additional Disclosures

Consider the investment objectives, risks, and charges and expenses carefully before investing. For a prospectus or, if available, a summary prospectus containing this and other information, call 1-855-405-6488 or visit troweprice.com. Read it carefully.

Morningstar rated the fund 3, 5, and 4 stars among 149, 139 and 95 Global Large-Stock Value funds for the 3-, 5-, and 10-year periods (as applicable) ending 3/31/2024, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.
