Performance data quoted represents past performance and is not a reliable indicator of future performance. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit troweprice.com. Consider the investment objectives, risks, and charges and expenses carefully before investing. For a prospectus or, if available, a summary prospectus containing this and other information, call 1-855-405-6488 or visit troweprice.com. Read it carefully. The average annual total return figures reflect the reinvestment of dividends and capital gains, if any. The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details. For Sourcing Information, please see Additional Disclosures.

INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks long-term growth of capital through investments primarily in the common stocks of companies located (or with primary operations) in Asia (excluding Japan).

Identify companies that can provide sustainable growth and/or potential for multiple expansion over the long-term through fundamental research.

The fund is constructed from the bottom-up, investing across the full market capitalization range to take advantage of the best investment opportunities and is not constrained by the index.

BENEFITS AND RISKS

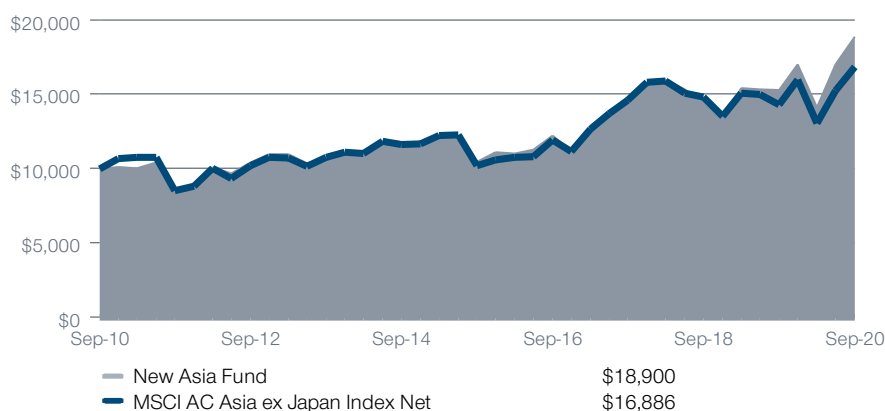

Broad investment opportunity, offering exposure to a rapidly evolving region.

Over long periods, emerging markets investing offers diversification benefits relative to an all-U.S. portfolio.

Emerging markets investments are generally more volatile than domestic investments.

CUMULATIVE RETURNS

Growth of \$10,000

INVEST WITH CONFIDENCE®

Definitions

Beta: A measure of market risk of an investment option that shows how responsive the investment is to a given market index, such as the Standard & Poor's 500 Index. By definition, the beta of the benchmark is 1.00. An investment with a beta of 1.10 is expected to perform 10% better than the index in up markets and 10% worse in down markets. Usually, higher betas represent riskier investments. Figures are calculated using monthly data and are net of fees.

Additional Disclosures

Morningstar rated the fund 4, 4, and 3 stars among 58, 50 and 29 Pacific/Asia ex-Japan Stk funds for the 3-, 5-, and 10-year periods (as applicable) ending 9/30/2020, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.
