Invests so that, under normal market conditions, at least 80% of the net assets are invested in bonds that pay interest exempt from federal, New York state, and New York City income taxes.

Weighted average maturity is expected to exceed 10 years.

Past performance is not a guarantee or a reliable indicator of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The Fund's total return figures reflect the reinvestment of dividends and capital gains, if any.

⁽³⁾Excludes the effect of contractual expense limitation arrangements. If the expense waiver was not in effect for the 30-Day period shown, there may not be a difference in the 30-day SEC yields shown above.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

Risks: Interest rates: A rise in interest rates typically causes the price of a fixed rate debt instrument to fall and its yield to rise. Conversely, a decline in interest rates typically causes the price of a fixed rate debt instrument to rise and the yield to fall. **State-specific focus:** Because the fund focuses its investments on securities issued by New York and its municipalities, it is more susceptible to unfavorable developments in New York than funds that invest in municipal securities of many states. **Taxes:** Some income may be subject to the federal alternative minimum tax. Income earned by non-New York residents will be subject to applicable state and local taxes. Capital gains, if any, are generally taxable. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 4, 4, and 4 stars among 76, 75 and 58 Muni New York Long funds for the 3-, 5-, and 10-year periods (as applicable) ending 3/31/2026, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Fund Assets, holdings-based analytics (excluding portfolio turnover), and portfolio attribution are calculated using T. Rowe Price's internal Investment Book of Records (IBOR). Due to timing and accounting methodology differences, IBOR data may differ from the Accounting Book of Records (ABOR) data provided by the Fund's accountant. The Top Guarantors excludes any Prerefunded or Escrowed holdings.

T. Rowe Price uses a custom structure for sector and industry reporting for this product. Diversification exhibits may not add to 100% due to exclusion or inclusion of cash. Credit ratings for the securities held in the Fund are provided by Moody's, Standard & Poor's and Fitch and are converted to the Standard & Poor's nomenclature. A rating of "AAA" represents the highest-rated securities, and a rating of "D" represents the lowest-rated securities. If the rating agencies differ, the highest rating is applied to the security. If a rating is not available, the security is classified as Not Rated (NR). T. Rowe Price uses the rating of the underlying investment vehicle to determine the creditworthiness of credit default swaps and sovereign securities. The Fund is not rated by any agency. U.S. Government Agency securities, if any, may include conventional pass-through securities and collateralized mortgage obligations. This category may include rated and unrated securities.

"Other" includes any categories not explicitly mentioned.

Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.
