INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks preservation of capital and liquidity and, consistent with these, the highest possible current income.

A money market fund managed to provide a stable share price.

Invests in high-quality, U.S. dollar-denominated money market securities of U.S. and foreign issuers.

Securities mature in 13 months or less.

Average weighted maturity will not exceed 60 days, and its yield will fluctuate with changes in short-term interest rates.

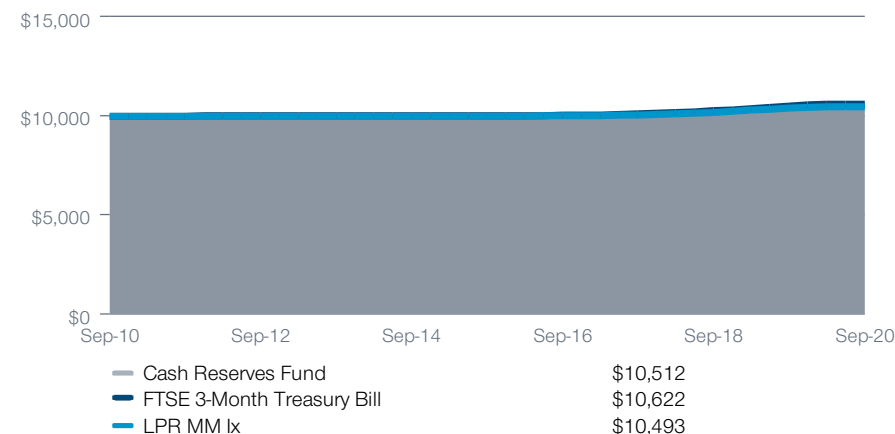

BENEFITS AND RISKS

Offers a relatively secure, liquid investment that seeks to provide the highest possible income available from low-risk, short-term securities.

Since it invests in very short-term securities, the fund has less exposure to interest rate risk and to principal loss than short-term bond funds, which may offer higher yields.

CUMULATIVE RETURNS

Growth of \$10,000

Performance data quoted represents past performance and is not a reliable indicator of future performance. Investment return and yield will fluctuate. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit troweprice.com. Consider the investment objectives, risks, and charges and expenses carefully before investing. For a prospectus or, if available, a summary prospectus containing this and other information, call 1-855-405-6488 or visit troweprice.com. Read it carefully. The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details. The Fund's total return figures reflect the reinvestment of dividends and capital gains, if any.

The fund's yield more closely reflects its current earnings than does the total return.

*In an effort to maintain a zero or positive net yield, T. Rowe Price may voluntarily waive or reimburse all or a portion of the management fee and operating expenses it is entitled to receive from the fund. The 7-day yield without waiver represents what the yield would have been if we were not waiving those fees. In addition, the fund's performance without the fee waiver or reimbursement would also have been lower. This voluntary waiver is in addition to any contractual expense ratio limitation in effect for the fund and may be amended or terminated at any time without prior notice. Please see the prospectus for more details.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time. Investments into retail money market funds are limited to natural persons or retail customers.
