Invests in a diversified group of underlying T. Rowe Price domestic bond funds, foreign bond funds, a money market fund, and an income-oriented stock fund.

BENEFITS AND RISKS

Offers a highly diversified approach to income investing.

Underlying holdings should provide the potential for a high level of current income and the potential for attractive long-term returns with moderate risk.

Yield and share price will vary with interest rate changes.

If interest rates rise significantly from current levels, bond fund total returns will decline and may even turn negative in the short term.

Morningstar rated the fund 3, 3, and 3 stars among 292, 248 and 133 Multisector Bond funds for the 3-, 5-, and 10-year periods (as applicable) ending 9/30/2020, respectively. T. Rowe Price uses a custom structure for diversification reporting on this product.

Diversification exhibits may not add to 100% due to exclusion or inclusion of cash.

Sources for credit quality: Moody’s Investors Service; if Moody’s does not rate a security, then Standard & Poor’s (S&P) is used as a secondary source. When available, T. Rowe Price will use Fitch for securities that are not rated by Moody’s or S&P. T. Rowe Price does not evaluate these ratings, but simply assigns them to the appropriate credit quality category as determined by the rating agency. T. Rowe Price uses the rating of the underlying investment vehicle for credit default swaps.
