The average annual total return figures reflect the reinvestment of dividends and capital gains, if any.

The T. Rowe Price Fund shares the portfolio of an existing fund (the original share class of the fund is referred to as the "investor class"). The total return figures for this I Class have been calculated using the performance data of the Investor Class up to the inception date of the I Class (8/28/15) and the actual performance results of the I Class since that date. Because the I Classes are expected to have lower expenses than the Investor Classes, the I Class performance, had it existed over the periods shown, would have been higher.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

Risks: Small-cap stocks: Investments in securities issued by small-cap companies are likely to be more volatile than investments in securities issued by larger companies. **Foreign investing:** Investments in the securities of non-U.S. issuers may be adversely affected by local or regional, political, social, and economic conditions; greater volatility; reduced liquidity; or decreases in foreign currency values relative to the U.S. dollar. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 4 and 3 stars among 550 and 519 Small Growth funds for the 3- and 5-year periods (as applicable) ending 6/30/2024, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Unless otherwise noted, index returns are shown with gross dividends reinvested.

Due to timing and accounting methodology differences, IBOR data may differ from the Accounting Book of Records (ABOR) data provided by the Fund's accountant. Diversification exhibits may not add to 100% due to exclusion or inclusion of cash. Certain numbers in this report may not equal stated totals due to rounding.
