

T. Rowe Price

STRATEGY HIGHLIGHTS | Ticker: QAAHCX | CUSIP: 77954T100

As of December 31, 2023

Equity Income Portfolio

Total Large-Cap Value Assets: \$115.6 billion | **Total Strategy Assets:**¹ \$33.3 billion | **Total Portfolio Assets:** \$735.7 million

INVESTMENT APPROACH

- Employ a conservative, value-oriented investment approach and typically invest in high quality, dividend-paying large-cap companies with strong brands, franchises, or assets we think are undervalued.
- To identify these companies, we let valuation be our guide and utilize a variety of different metrics and proprietary screens to assess valuation appeal.
- Leverage our global research platform to assist in uncovering companies with strong reward-to-risk characteristics.
- Maintain a long-term orientation to allow for full exploitation of valuation anomalies.
- Construct a diversified portfolio to help manage our risk profile.
- A value approach carries the risk that the market will not recognize a security's intrinsic value for a long time (or at all) or that a stock judged to be undervalued may actually be appropriately priced.

PORTFOLIO CONSTRUCTION

- Bottom-up fundamental approach
- Typically 100-125 issuer portfolio
- Individual positions will typically range from 0.50% to 3.00%-average position size of 0.75% to 1.50%
- Sector weights typically range from 0.5X to 2.0X, the primary value sectors of the Russell 1000 Value Index
- Reserves will typically range from 1% to 3%
- Seeks above average dividend yield relative to the broader equity market

BENCHMARK

- Russell 1000 Value Index
- Lipper Variable Annuity Underlying Equity Income Funds Average

Lipper Ranking	–	38 of 80	24 of 79	34 of 78	42 of 64	30 of 55

Performance data quoted represents past performance and is not a reliable indicator of future performance. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance, visit [troweprice.com](https://www.troweprice.com). The Portfolio's total return figures reflect the reinvestment of dividends and capital gains, if any.

Figures shown do not reflect fees at the insurance product or contract level; if these fees were included, returns would be lower.

The Portfolio's net expense ratio as of the most recent prospectus was **0.74%**. For information about the expenses and waivers, see the prospectus for details.

Lipper rankings are based on cumulative total return. The Lipper Average consists of all share classes; each share class is counted separately.

RISK/RETURN CHARACTERISTICS

Five Years ended December 31, 2023

Past performance is not a reliable indicator of future performance. Figures are calculated using monthly data and are net of fees.

ADDITIONAL DISCLOSURES

Portfolio Construction: There is no guarantee that the investment will remain within the anticipated ranges of exposure.

Active Share is a holdings based measure of active management representing the percentage of a portfolio's holdings that differ from those in its benchmark. Compared to tracking error, which measures the standard deviation of the difference in a manager's returns versus the Benchmark returns, Active Share allows investors to get a clearer understanding of what a manager is doing to drive performance, rather than drawing conclusions from observed returns. The greater the difference between the asset composition of a product and its benchmark, the greater the active share is.

Consider the investment objectives, risks, and charges and expenses carefully before investing. For a prospectus or, if available, a summary prospectus containing this and other information, call 1-800-638-7780 or visit [troweprice.com](https://www.troweprice.com). Read it carefully.
